TO OUR PATRONS

In presenting this our 20c edition of Mac Donald's Farmers Almanac for 1925 to our customers and the public, we feel that we have taken another step forward as it contains the most practical information of useful value to everyone on affairs which occur in daily life.

The yearly demand for this standard Almanac is steadily increasing and the reason for this is, that it contains so much helpful information of worth while value and which has caused the people generally and the agriculturist in particular to look upon it as a very reliable and necessary Almanac to have in every home for daily reference.

We fully recognize and appreciate the motives which have actuated thousands of people to write us voluntarily in praise of both Mac Donald's Farmers Astrological Almanac and Dr. Mac Donald's Atlas Compound. For these generous written expressions, we feel profoundly grateful.

We desire to express our thanks to the public and especially to our many thousands of customers and to assure all that our most ardent and sincere desire to do good is centered in the welfare of the people.

We welcome suggestions from anyone. Our correspondence department is always at your service, and any information upon matters of a helpful nature and within our resources, will always be cheerfully given.

Sincerely yours,
Jeremiah Mac Donald
and
Atlas Printing Co.

WE DO NOT WRITE PERSONAL HOROSCOPES

Again we feel compelled to make this announcement because people write us to cast their horoscopes. It takes valuable time to correctly do this for any individual and we now trust our customers and others will not write or send money for this particular purpose as it only causes us to spend time writing letters of refusal and giving us the inconvenience of returning money sent only for such request. Please do NOT ask us to write your horoscope as it will avail nothing. We use Astrology only to benefit the public in general.

WARNING

Letters have reached us at various times from people living in Texas, Arkansas, Missouri and other western and southern states, informing us that some man has called on them representing himself to be Dr. Mac Donald and from our office and getting money from people by misrepresentation.

We hereby warn the public that this man is a fraud and an impostor. Any man who represents himself as Dr. MacDonald of Binghamton, N. Y. from the Atlas Printing Co. or Dr. MacDonald's Atlas Compound and tries to obtain money by means of representation that he can perform miracles, ward off evils, perform or send them cures, should be reported to your local police and to us. Do not give any such man money.

We have many honorable agents selling Atlas Compound and MacDonald's Farmers' Almanac. These are entitled to favorable consideration by the public.

When ordering Dr. Mac Donald's Atlas Compound, Mac Donald's Farmers Almanac, Books or anything else listed in any of our advertising matter, all letters should be plainly addressed and Money Orders made payable as follows:

ATLAS PRINTING CO. OR JEREMIAH MAC DONALD

No. 53-55 Washington St., BINGHAMTON, N. Y.

J. MacDonald, M.D.

General Predictions For 1925

Mars the most active and business planet in the universe is the year ruler. The most salient characteristic of Mars is Dynamic Energy. This fiery planet rules strength, force, courage, ambition, turns the desires toward constructive objects, well regulated activities and has many of our highly prized virtues.

The worst faults of Mars are impulsiveness and lack of persistence, although he does not breed Hypocrites. While this planet is also a disturber and produces a variety of evil, yet effects are soon over.

People who have Mars well aspected in their horoscope, are eminently practical and play an important part in life and public affairs. They excel in other positions where courage and intrepidity are necessary qualifications.

As in every transaction there is a certain amount of confidence, people generally throughout this year should strive to avoid anger, hasty decisions, disagreements and quarrels. Under self control and carefully guided into channels of useful activity, much may be accomplished and great progress made.

Many accidents, fires and quarrels will occur as well as some business and labor disturbances. Every precaution should be exercised to prevent fires, spontaneous combustion and forest fires through the late summer and early fall period. Hunters and other people roaming through the country and woods for game or pleasure, should have due regard for the rights of property and guard against carelessness in what may cause fires. Large crowds where excitement runs high had best be avoided, as injuries may result in such gatherings.

A GOOD MECHANICAL YEAR

Mars posited on the cusp of the 2nd house in the chart, sextile Uranus, Jupiter, plainly shows the source of wealth and prosperity to come from machinery, mechanical pursuits, construction work and ability in these lines. Those connected with them and in employ will do well this year.

Astrologically considered the year will be a prosperous one for engineers, contractors, foundries, structural iron and steel workers, machinists, sewer builders, hardware dealers, blacksmiths, butchers, surgeons, druggists, dentists, workers in metals, carpenters, lumbermen, stockraisers, and all engaged in machine made utilities, mechanical affairs and construction work generally; also for those interested in or connected with work carried on out of doors and in business and personal affairs or employment of responsibility that owe their existence and success mainly to push, pluck, perseverance and hard work.

THE BUSINESS HOROSCOPE

The silent forces of the Stars are marshalling their influences. Great events are now pending. There will come a readjustment with larger human freedom, with broader opportunities for progress, social, religious, educational and political unity.

The planetary aspects forecast a strong business advance with favoring influences, better conditions and feeling of security will be manifested along lines of trade. Extensive building projects may be looked for and great increase of public improvement in cities and towns with continued road building in all sections.

Steel and Iron industries will be favored through a decided increase of construction enterprises. The Automobile industry may meet with some reactions unless a more conservative policy is resorted to, as an invisible peril is developing in over-production and which may affect the workers and the safety of general business.

General farming interests have been neglected and motionless, but this condition will in a great measure be given more direct attention and will be largely overcome by active consideration for the welfare of this most important business which is in reality the backbone of the country and upon which so much depends. New life with more concentrated effort will be injected into an extensive support of the farmers of this United States.

AGRICULTURAL INDICATIONS

A good year for corn, grain, onions, peas, beans and vine crops, but not for hay, millet and alfalfa. In many sections, these crops will be light. Fruit will be good but not abundant. Spraying should be done at the proper time in all producing orchards. Most crops should be sown as early as the season will permit. Any excess of live stock should not be carried through the winter, especially if inferior. Many bugs, snakes and grasshoppers will make their appearance quite early in the season.

THE FOUR SEASONS

The spring season will be dry and cold generally; late frosts may be expected in all northern sections. April 8-9th, May 5-6th and June 2-3rd, (Increasing Moon in Libra) will be excellent dates to set and transplant flowers.

The summer season will be very hot, the nights sultry and oppressive. Streams and wells will become very low and even dry in higher sections. Wind and lightning will be of frequent occurrence.

June 14-15th, (Moon old in Taurus) and the 18-19th, (Moon old in Pisces) will be the very best dates for planting late Potatoes.

From August 6th to the 19th, 17-18 being the very best dates, Moon old in Leo, will be the most favorable time for destroying all weeds and other noxious growths.

The fall will be dry in most sections, warm, pleasant and without storms except local. From October 18th to 30th, will be an excellent time to make cider. It will be fine in quality and keep sweet longer.

The winter season will be cold, severe and changeable with disagreeable weather conditions. Considered an extreme winter. The New Moon occurs on Dec. 15th in the flexible sign Sagittarius. This lunation prestiges an excellent business period for the holiday, season, much activity, jovialty, generosity and expansion. Favorable for new business, dealing with business and professional people. Liability to extravagance; sleighing or heavy snow falling and general good health for the masses.

INFLUENCE OF MARS ON HEALTH

Mars is expansive, hot and inflammatory, producing fevers, burnings, injuries, contagious diseases, perils by waters and accidental deaths. Be careful in using fire arms and sharp instruments. Keep away from poison ivy.

Affections of the skin, kidneys, gall bladder, secretory organs and depleted vitality will be the cause of sickness and ill health. Diseases of the spleen, stomach, liver and blood will be the prevailing ailments. Left ear troubles will be distressing to many. Danger of apoplexy from blood and liver complaints, violent brain storms, rush of blood to the head, tendency to flightiness.

WHAT THE DIRECTING PLANETS DENOTE

From the positions of the Heavenly Bodies there will come changes in circumstances; some surprising failures, sudden flare ups, disagreements between partners, employers and those in employ. There will occur pauses in various manufacturing lines.

Mercury the mental planet in the 3rd section of the sky map, in opposition to Saturn, denotes a great deal of discontent and there will likely occur changes on short notice or quick decisions. Mercury also denotes that some unrest and discontent will arise among the miners.

Venus the most benefic planet next to Jupiter, in the 4th domain in its own sign, is somewhat favorable for agricultural matters, although lack of moisture is shown in sections with hot sultry weather during a part of the growing season. Frequent cultivation of crops will be necessary with greater effort and attention to all vegetable growth to induce a plentiful supply.

The position and aspect of the Moon in the 6th section of the chart, denotes much illness of children, especially babies and young children during the summer quarter.

Saturn posited in the 8th house, denotes deaths of prominent persons, a public man of government connection will pass to the great beyond.

Jupiter on the cusp of the 9th house, denotes much travel in connection with business matters and affairs of a public and financial nature. More aggressive forces will be in action and competition in all lines will be very active.

The good aspect between Mars and Uranus shows energy, enterprise, new projects and much industrial activity in mechanical and electrical affairs: new inventions and factories, modern equipment and that increased financial aid will be given in such matters.

One of the best indications in the astrological chart is that of Jupiter to Neptune which denotes that much money will be kept in business circulation.

Uranus the mysterious planet remains in the sign Pisces and as long as it does, the affairs of capital and labor will continue in unrest and turmoil; bootlegging will be very apt to persist, while the liquor question and its solution will continue to have most serious consideration and prove annoying to those having it to contend with.

LABOR AND EMPLOYER

Labor in general is somewhat discontented. The problems of control and handling of labor, the intricate nature of these problems peculiar to different industries along with human conditions to contend with are all factors to be reckoned with.

Efficient and honest management in industries, intelligent planning, educational and psychological study of employes with the idea in view of fairly and reasonably meeting their rightful needs, as well as the choice of employes fitted for work they are best adapted to and men placed where they can give the best service according to qualification or experience, with steady employment for all workers, will do much to prevent unrest and turmoil and bring about a reaction favorable to the best interests of all.

EFFECTS OF THE PLANETS FOR JANUARY

The new year is ushered in under the influence of the increasing Moon, the first quarter taking place on the 1st. and is astrologically not a good indication for things this month. Moon is in the sign Aries which governs the head and people will be apt to be headstrong and changeable, very active in affairs of a mental nature.

A total eclipse of the Sun occurs on the 24th, visible in the United States. As the new Moon is in Aquarius, changes and uncertainty in many things may be expected, much unrest and sickness.

Do not be swayed by the advice of companions, make impossible promises or engagements. Risks and radical changes should be avoided as this period is unfavorable for important matters or the beginning of new undertakings.

From the reading of the Stars, this will be a very interesting period for observation of planetary effects upon national conditions as affecting the people generally.

The year, considered as a whole, draws particular attention to finances, mechanical affairs, machine made utilities and all connected with them, agriculture and its relation to business. As the year draws to a close the prices on many commodities will be lower.

A good year to deal in Animals, either buying, selling, transporting or teaching them.

All who have property should carefully avoid trouble or legal entanglements this year.

Outdoor sports and games of all kinds will be popular.

Persons having Tuesday as their birthday will usually be fortunate, do well in business and make many new friends and acquaintances.

Many male children will be born this year. There will take place many marriages on rather short acquaintance.

ASTROLOGY AND THE BIBLE

The Bible is a text book of Heaven and the study of its contents is the study of our Solar System. The key to the secrets of the Heavens will be found in the Bible.

The Bible illustrates the principles of creation and the philosophy of life in the three planets—Uranus, Neptune and Saturn. When the planets pass through the Heavens a given condition is produced and this condition is reproduced on the earth.

The contents of the Bible so far as they refer to the material or earthly conditions are a simple study of the planets and the twelve houses of the Zodiac. One who is somewhat familiar with the study of Astrology will, by reading the Bible, see the most harmonious scientific teachings.

The Bible refers to the planets and the signs of the Zodiac, and from the first chapter of Genesis to the last chapter of Revelations, the Bible contains the study of the planets in the heavens—teachings of the Zodiac and the planets—the science of Astrology and its correctness—in all things as applied to the affairs on this earth.

YOU USE IT DAILY

The body does not grow old as long as it is normal, healthy and vigorous, but improper functioning of some of its parts cause men and women to age rapidly after a certain period of life and constipation and its many attendant ills are the prime cause of deterioration of the body and therefore of age.

Constipation is caused by improper combination of foods. This prevents proper elimination and when that does not take place, the surplus foods remain in the body and make it old.

The nerves which are the centers of vitality are deprived of their flexibility and do not vibrate to the feelings and powers of life as they should. When the nervous system is properly balanced it has the necessary energy and it is impossible for the body to become old, but this balance can neither be secured nor maintained without proper exercise and food.

In order to keep the body from aging we must eat the right kind and right amount of food to replace the energy and tissue which is being constantly used up.

As age advances, the liver hardens, then the kidneys and finally the heart. When these organs slow up in their work, then the whole body suffers. When the body commences to age, the heart becomes weaker and bodily degeneration sets in.

During the winter months the kind of food eaten causes congestion and an accumulation of poison in the system and this is why diseases of all kinds are so prevalent during the winter.

Dr. Mac Donald's ATLAS COMPOUND, the great general medicine made to fit the average case acts as a corrective and assists nature to expel the accumulated waste products, slime and poisonous matter which brings about such disorders as biliousness, coated tongue, constipation, sick headache, appendicitis, indigestion, dyspepsia, catarrh, belching of gas, pain in the stomach or bowels.

THIS ALMANAC IS COPYRIGHTED.

BY ATLAS PRINTING CO.

This Almanac is copyrighted; which means that we have paid the United States Government a fee to record it with the Librarian of Congress as our own production and private property, and all persons are warned not to reprint or use any part of it without our permission, under Penalty of the Law.

IF YOU MUST TAKE MEDICINE TRY ATLAS COMPOUND

AN ABSOLUTE GUARANTEE OF PURITY

I hereby certify that ATLAS COMPOUND is a purely vegetable preparation and does not contain any calomel, mercury, creosote, morphine, cocaine, acetanilide, (or coal tar products), arsenic, potash, lye, quinine, strychnine, alcohol or any harmful or habit forming drug, and that it is **ABSOLUTELY PURE**.

Planting Days For 1925

Best dates for planting when Moon is in fruitful signs. These dates are good only for this year - 1925.

Figures in light type indicate best days for planting all things which grow and mature above ground. Figures in heavy or black face type may be used for planting things which mature in the ground like potatoes & etc. but the dates given in light face type in the different months are also good for planting things which mature in the ground, and according to the increasing and decreasing of the Moon. After New Moon it is increasing. After Full Moon it is decreasing. Do not plant on the day Moon changes quarters.

	Full Moon	New Moon
Feb. 24-27-28	Feb. 9.	Feb. 23.
March 4-5-6-14-15-18-19-22-23-27-28	March 10	March 24.
April 1-2-10-11-18-19-20-24-28-29	April 9.	April 23.
May 7-11-12-13-16-17-20-21-22-25-26-27	May 8.	May 23.
June 4-5-8-9-12-13-16-17-18-22-23	June 6.	June 21.
July 1-2-5-9-10-14-15-19-20-28-29-30	July 6.	July 21.
Aug. 2-3-6-7-10-11-15-16-25-26-29-30	Aug. 4.	Aug. 19.
Sept. 3-6-7-8-11-12-13-21-22-25-25	Sept. 2.	Sept. 18.

For planting Flowers the best dates are April 9th, May 5-6th, June 2-3rd.

The planting dates in the earlier months are given for southern climates and hot house planting. The dates in the late months are given for buckwheat, timothy seeding and winter grains.

Crops which produce their yield and mature above ground should be planted during the increase of Moon - New and First Quarter and while in the fruitful signs. Crops which produce their yield in the ground should be planted when Moon is Full and in the earth signs Taurus and Capricorn, but the signs Cancer, Scorpio and Pisces are also good.

Page headed "Positions of the Moon", show the different signs the Moon is in on any day of the month and should be referred to for all planting. Each Calender page gives the dates when Moon is New, and in First Quarter [Increasing], Full and Last Quarter, [decreasing].

IN ALL PLANTING

It is the Moon's influence in ecliptic, the Zodiac, that affects vegetation and it is the zodiacal influence and position of the Moon which is taken into account by Astrology.

This Almanac gives the proper place of the Moon for all planting and other purposes.

WHAT THE FARMER KNOWS

Every Man who has "farmed" it for a living, knows well that the farmer and his family deserve all they get, and also that they do not always receive a fair equivalent for what they produce.

The time is not far distant when the farmer will come into his own, when business will recognize him as a mighty important factor in its welfare and will more closely co-operate with him for the general prosperity of all.

For Weaning Babies In 1925 The Best Dates are

January 20 to 27	May 9 to 17	Sept. 1 to 3 and 23 to 30
Feb. 17 to 24	June 6 to 13	Octouer 1st and 20 to 28
March 16 to 23	July 3 to 10 and the 31st	November 17 to 24
April 12 to 20	Aug. 1 to 7 and 27 to 31	December 14 to 21

The Moon on dates given is in the signs Sagittarius, Capricorn, Aquarius or Pisces. These Signs rule the thighs, knees, ankles and feet. These dates also apply to Animals.

THE CARE OF GROWING CHICKS

The person who grows chicks on limited range, and especially in the backyard, should have a light coop which can be built at home or purchased of some supply house and which can be handled readily. It should be built so as to have a large wire opening in the front and have a southern exposure.

Such a poultry house will care for from 25 to 50 chicks, according to age. It should preferably have a board floor during the early part of the season and which should be independent of the poultry house so that the floor can be taken out to clean, and which should be done once a week.

Young chicks generally are ready to leave the brooder when they are from 5 to 8 weeks old, or when they no longer need heat. At this time, low flat roosts should be placed in the poultry house so that the chicks will become accustomed to them, as they will naturally occupy the roosts more or less during the daytime.

Leghorns and light weight breeds take more readily to the roosts than the heavier breeds and will often roost soon after they are taken from the brooder. The heavier breeds will usually crowd into the corners of the poultry house or coop and they will often get to be about four months old before they learn to go on the roost at night. It is best to give them plenty of clean bedding to squat on and let them take their own time about going on the roost.

Where there are too many in a coop, they are apt to crowd and liable to retard growth. Coops which are badly ventilated and in which the chicks crowd, may cause colds and roup. To prevent smothering and give the chicks more room as well as to teach them to roost, it is best to set a slatted frame in the corner of the coop. They can be grown on a very limited space if the necessary care and attention is given. The earth should always be kept clean and mellow for the chicks to scratch in.

Where the chicks are all of one size, and about the same vitality, they will make better growth than if the different sizes are kept together, as quick even growth is most essential. Their ration should be gradually changed. Whole wheat and cracked corn may be added to the usual chick feed. It is best to place a hopper of feed in the coop and also scatter a little in the yard or run.

If another hopper is kept filled with a mixture composed of three parts each by weight of wheat bran, corn meal, wheat middlings and ground beef scrap, with one part of bone meal, it will help their growth and vitality. One meal daily may be given to advantage of moist mash feed, consisting of the same mixture used for the dry mash feed, but moistened with sour milk.

The chicks should be given plenty of green feed, fresh clean water, grit, charcoal, shell and bone. Raw potatoes cut in small chunks or fresh potato skins are relished by chicks that do not have grass to run on.

THE POPULAR BARRED ROCK FOWLS

Contrary to the general idea of many people, there is nothing at all complex in the breeding of Barred Rock Poultry. The entire success is very greatly in the one who raises this variety becoming thoroughly acquainted with the facts of experience and which really consists of Two lines of breeding. One to produce Standard bred males, the other to produce Standard bred females.

It is important that both male and female should match evenly and correctly in color, as shape makes the breed while color makes the variety.

The body should be of medium length, comb medium, shanks and thighs medium length; tail full and at medium angle. The shade of plumage in the male is naturally several shades lighter than in the female and of a higher and more attractive color. As an all purpose fowl they are excellent and satisfactory.

Mrs. John E. Anderson, Cincinnati, Ohio, writes Aug. 21-24: "I am a constant user of Atlas Compound. I keep a Box in the house and when I feel bad take the tablets for a few days. I think there is nothing to help quicker."

Edna Lawton, Theresa, N. Y., writes Aug. 6-24: "Some time ago I had brown spots all over my face. I tried different things and went to the Doctor, but nothing removed the spots until I took THREE Boxes of Atlas Compound. Then the spots vanished, leaving my skin in good condition and my body toned up. I think your ATLAS COMPOUND is an excellent remedy for toning up the system and removing brown liver spots."

Ida Pratt, West Phila., Pa., writes Aug. 12-24: "I have taken Atlas Compound for at least 12 years and think it the best medicine I have ever taken."

D. C. Syerock, Goodnight, Okla., writes July 28-24: "I must say that your medicine (Atlas Compound) is just what it is claimed to be. I am now in fine shape at 55 years of age. Since I have been taking Atlas Compound, I feel like I did at 25."

Grant Pruitt, Gillett, Ark., writes July 28-24: "I have had stomach trouble 10 years and never found any relief until I tried your Atlas Compound."

Mac Donald's Farmers Almanac Calculations for 1925

The year 1925 comprises the latter part of the 149th and the beginning of the 150th year of American Independence and corresponds to the year 6638 of the Julian Period; the year 5685-5686 of the Jewish Era; the year 5686 begins at sunset on September 19; the year 2678 since the foundation of Rome, according to Varro; the year 2585 of the Japanese Era and to the 14th year of the period entitled "Taisei"; the year 1344 of the Mohammedan Era or the Era of the Hegira, begins on the 22d day of July, 1925.

The first day of January 1925, is the 2,424,154th day since the commencement of the Julian Period.

MORNING AND EVENING STARS, 1925.

Mercury will be Morning Star about January 17, May 16 and December 31; and Evening Star about March 30, July 28 and November 22

Venus will be Morning Star till April 23, and then Evening the rest of the year.

Jupiter will be Morning Star till July 10; then Evening Star the rest of the year.

ECLIPSES, 1925.

In the year 1925 there will be four Eclipses, two of the Sun and two of the Moon.

I.—A Total Eclipse of the Sun, January 24. Visible to the central and eastern parts of North America, the extreme northern part of South America, central and western Europe, and the northwestern part of Africa. The path of totality extends in a southeasterly direction from the northern part of Minnesota across the states of New York, Connecticut and Rhode Island.

II.—A Partial Eclipse of the Moon, February 8. Visible to Europe, Africa and Asia. Also the beginning will be visible to western Australia, and the ending to the eastern parts of North and South America.

III —An Annular Eclipse of the Sun, July 20—21. Invisible to the United States. Visible to the eastern part of Australia and the South Pacific Ocean.

IV.—A Partial Eclipse of the Moon, August 4. The beginning visible generally to North America except the northeastern part, western and southern South America, Australia and the extreme northeastern part of Asia; the ending visible generally to Australia and the eastern part of Asia.

The Proper Time To Plant And Harvest

The proper time for planting is when nature has the earth ready and man has prepared the soil for crops as indicated by the signs of the heavens and when this Almanac shows the Moon to be in the right phase and Zodiacal sign.

The planting signs and the days the Moon is in them, as well as the signs for cultivating and destroying noxious growths are given on the page headed "Positions of the Moon." while the name of each sign and its symbol is given on the first page in this Almanac.

The twelve zodiacal signs in practical use for agricultural purposes with a dependable guide are

Cancer	♋	Feminine watery signs
Scorpio	♏	Most fruitful of all
Pisces	♐	Best for all planting
Taurus	♉	Semi fruitful
Capricorn	♏	Earth and air signs
Libra	♎	Fair for planting
Sagittarius	♐	Tend to barrenness
Aquarius	♒	Good for cultivating
Aries	♈	Fair for destroying weeds etc.
Gemini	♊	Represents barren triplicity
Leo	♌	Leo most barren of all
Virgo	♍	Best for destroying weeds etc.

Cancer the mother sign representing country and home, is the most productive of all the signs. Scorpio ranks next, with Pisces third. These are the feminine, fruitful, watery signs.

Taurus, Capricorn and Libra are in the second group. They are semi fruitful and are fair for planting, but Taurus is very good for potatoes and root crops; Capricorn fair. Libra produces vigorous pulp growth and roots and a reasonable amount of grain. Libra is good for flowers.

Sagittarius, Aquarius and Aries the third group are masculine, fiery and air signs and tend to barrenness. Sagittarius is used for onions and seeding of hay. Aries also for onions. Aquarius for cultivating,

Gemini, Leo and Virgo, all considered non-productive and barren, are the best signs for grubbing and destroying noxious growths, especially between the 1st and 20th of August, September, February or June and in old or fourth quarter of Moon. Gemini is used for string beans and cucumbers.

Always do your harvesting near "Full Moon and when it is in the Airy signs Gemini, Libra or Aquarius. The fiery signs Aries, Leo and Sagittarius are next best. Harvest all root crops when Moon is Full and growing old.

Gather seed at Full Moon and when it is in signs Cancer, Taurus, Libra, Scorpio, Pisces or Capricorn.

Celery does fine when planted while increasing Moon is in Libra as it makes quick growth. Flowers also do excellent when planted in this sign.

Use new and increasing Moon for planting and Full and old Moon for harvesting and cultivating.

As a number of our patrons write us regarding the apparent discrepancy between the above positions of the moon and those given in other Almanacs, we will explain the matter as follows: For all PLANTING and ASTROLOGICAL purposes the Moon's true place is in the SIGNS OF THE ZODIAC. Other Almanacs give the Moon's place in the constellations, which is not right for Planting or other Astrological operations.

WEATHER FORECAST FOR JANUARY, 1925

1st to 3d—MILD PERIOD. Fair and frosty weather over the Western and Southwestern states. Cloudy and threatening conditions throughout the Southern and Eastern portions.

4th to 9th—COLD WAVE. Extremely low temperature in the Northwestern states and Lake region. Freezing weather at points as far south as northern Louisiana and Florida.

10th to 12th—STORM WAVE. Very high winds from the Gulf and Mexican border to the Great Lakes, with general snowfall in northern sections. Heavy rains in the South.

13th to 17th—MILD PERIOD. Clear and pleasant days at most points South and East. Soft and slushy weather in the Central and Middle Atlantic states.

18th to 21st—COLD WAVE. Decidedly colder weather at all points in the West and Northwest. Zero temperature as far south as Kansas City, Louisville and Richmond.

22d to 26th—STORM PERIOD. Rain, sleet and snow general in Western, Central and Eastern states. Cloudy and foggy in the Gulf and South Atlantic states.

27th to 31st—COLD WAVE. Cold and stormy from Texas to the Dakotas. Falling temperature in the Central states, the Lake region, St. Lawrence river valley and New England states.

HINTS TO FARMERS FOR JANUARY

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Prepare ground for plowing, cleanup, begin to feed the horses for spring work, feed a few carrots to the horses and mangels to the cows. Start hot beds.

JANUARY'S DISEASES.—This month we have the "January thaw." This change in the weather is responsible for a vast amount of sickness and death. Lagrip, coughs, colds, sore throat and catarrh, all lead to pneumonia and consumption. In nine cases out of ten diseases contracted this month lead to complications that last indefinitely.

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. A good day, visit friends, make good resolutions.
2. Speculate, good for business and pleasure.
3. Disappointments in domestic and love affairs.
4. Maintain harmony; visit and be quiet.
5. Not good for important changes; plan to-day.
6. Benefits matters of business, pleasure and social affairs.
7. Avoid haste, quick decisions; decide to-morrow.
8. Good for constructive and profitable affairs.
9. Good for association with opposite sex.
10. Buy, push business, ask favors, sign writings.
11. Study; attend to religious affairs; do good.
12. Avoid opposite sex; very uncertain.
13. Make important engagements in the morning.
14. Exercise caution in agreements, promises, loans.
15. Good for business activity and for pleasure.
16. Unfavorable for marriage, good otherwise.
17. Buy and sell, make friends, do business.
18. Favorable generally for recreation, religious and regular duties.
19. Women should avoid risky situations; men risky deals.
20. Favorable for general pursuits and getting things started.
21. Good; conditions very favorable.
22. Attend to unimportant duties only; be cheerful.
23. Good for shopping, making friends and recreation.
24. Avoid hasty decisions; an unfortunate day.
25. Rather favorable, ask favors of opposite sex.
26. Avoid risky ventures; use caution in all affairs.
27. Doubtful, plans are apt to be changed.
28. The morning is good for business.
29. Deal with females, travel and push business.
30. Unfavorable for marriage, travel or sports.
31. Much useful work may be accomplished to-day.

ZODICAL TENDENCIES CAPRICORN PEOPLE

Born from Dec. 23 to Jan 19, any year

General characteristics. Capricorn is an earthy, movable, serving, feminine, negative sign. Expression, intellect, ambition, ideality. Rules knees and affairs of a public nature.

The man born in this sign is physically strong, talkative, industrious, persevering, generally practical and economical, somewhat particular, never easily discouraged, although often disappointed, careful, cautious, makes the most of his opportunities, and usually triumphs over circumstances, succeeds in farming, building and real estate, excels in story-telling. He is proud, passionate, suspicious, independent, fond of good living, affectionate to his own, selfish regarding them; severe on those who meddle in his affairs, subject to sudden spells of anger; not above manual work when necessary; has capacity for organization, quick to grasp an opportunity and with ability to plan and execute. Usually careful in all money and business affairs, and a promise is sacredly regarded. Leads rather an anxious life, not always successful, but will have more friends than enemies.

The woman born in this sign has a fine memory, makes a good teacher, is faithful and devoted in domestic relations, very sincere, not demonstrative, but has a hidden, intense and ardent nature. She will make a good wife and mother, but does not like to be interfered with in her household affairs, and never meddles with the affairs of others; usually more discreet than the man and knows how to make both ends meet; dislike flattery, but appreciates praise when she feels she has righteously earned it. She has fine taste in dress and in the arrangement of the home, and a good entertainer; subject to gloomy spells of depression and fits of despondency without apparent cause; nervous from overwork. When understood she is genial and really liked; is good-hearted and does for others more than is expected of her. She will have but little real trouble, not much sickness and but few children.

Both men and women will find congenial friends among people born in all of the signs, but for more intimate companions and partnerships look to those born in Virgo, Taurus or Libra, and those born about the same time of year as themselves.

The birthstone is the Turquoise, favorite gems White Onyx, Moonstone, and the colors maroon, garnet, brown, silver, black.

WEDDING ANNIVERSARIES

First—Cotton
Second—Paper
Third—Leather
Fourth—Fruit and Flowers
Fifth—Wooden
Sixth—Sugar
Seventh—Woolen

WEATHER FORECAST FOR FEBRUARY, 1925

1st to 4th—STORM PERIOD. Very blustery in the Northwest portion and heavy gales in the Great Lakes region. Cloudy in Kentucky, Tennessee and both Carolinas.
5th to 8th—SNOW PERIOD. Snow and sleet in the upper Missouri and Mississippi river valleys. Damp and cloudy along the Gulf coast and South Atlantic states.
9th to 12th—COLD WAVE. Very cold weather in the Northwest, Lake region and Central sections. Freezing weather as far south as Memphis, Atlanta and Savannah.
13th to 17th—PLEASANT PERIOD. Soft and mild conditions prevailing in the Southwest. General thaw in the region of the Great Lakes and Middle Atlantic states.
18th to 22d—STORM PERIOD. Dangerous gales with snow flurries over the Great Lakes region and along the North Atlantic coast. General rains on the North Pacific slope.
23d to 26th—UNSETTLED PERIOD. Damp, foggy and drizzling weather in the Southern, Central and Eastern sections. Thunder storms throughout the Gulf and South Atlantic states.
27th and 28th—COLD WAVE. Sharp, cold weather over the Rocky mountain region and Northwestern states. Sudden fall of temperature in the Western, Southwestern and Gulf states.

HINTS TO FARMERS FOR FEBRUARY

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Look to the fences, clear up fallen trees, finish Winter pruning. Cattle and sheep must be kept dry and warm this month particularly.

FEBRUARY'S DISEASES.—In the North, February is the coldest month of the Winter. It offers new opportunities for catching cold and starting pneumonia and consumption. Rheumatism, sleeplessness, constipation and female troubles begin this month.

Blount N. Y. R F D 1

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. Excellent for research, adventure, religious matters.
2. Buy, speculate, seek business, help others.
3. Contrary qualities alternate to-day, be conservative.
4. Good for business of ordinary import, sell.
5. Not good for business or other important matters in P. M.
6. Favorable for general activity, be careful in travel.
7. A good day for everything, push business.
8. Use care in matters of health, good for religious affairs.
9. Doubtful conditions prevail; seek cheerful people and places.
10. Keep busy and be agreeable; ask favors.
11. Another good day, speculate, use foresight.
12. Avoid risky ventures or doubtful responsibilities.
13. Good for business efforts and pleasures.
14. Favors correspondence, business and routine duties.
15. Good for religious efforts, recreation, health affairs.
16. Doubtful for important changes or decisions.
17. Buy, sell, speculate, travel, seek work.
18. Be careful, good and adverse aspects prevail.
19. Not auspicious for transacting important business.
20. Conditions fair for ordinary business pleasure.
21. Good for ordinary business, evening for social matters.
22. Rest, study, attend to religious duties.
23. Favorable for progressive matters, domestic affairs.
24. Avoid haste, force, maintain harmony.
25. Good for active and aggressive efforts.
26. Guard against harshness, snap judgment or exaggeration.
27. Do business in the morning, deal with opposite sex.
28. Good for business, travel, important changes.

GEMS, SYMBOLIC OF THE MONTHS

Each month is supposed by many to have its own symbolic gem, and below can be found your birthstone and what it symbolizes.

January—Garnet, symbolizing constancy and fidelity.

February—Amethyst, symbolizing peace of mind and sobriety.

March—Bloodstone, symbolizing courage and success.

April—Diamonds, symbolizing repentance and innocence.

May—Emerald, symbolizing success in love.

June—Pearl and Moonstone, symbolizing long life and health.

July—Ruby, symbolizing cure of evils resulting from forgetfulness.

August—Sardonyx or Onyx, symbolizing conjugal felicity.

September—Sapphire, symbolizing preservation from folly.

October—Opal and Tourmaline, symbolizing hope.

November—Topaz, symbolizing fidelity and friendship.

December—Turquoise, symbolizing brilliant success.

ZODICAL TENDENCIES AQUARIUS PEOPLE

Born from Jan. 20 to Feb. 18, any year

General characteristics. Aquarius is a fixed, masculine, positive, serving, airy sign. Expresses will, power, purpose, rules ankles, pleasure, happiness, mentality.

The man born in this sign has a pleasant, friendly, generous, patient, determined nature; strong likes and dislikes; often very radical and advanced in his ideas; easily influenced by kindness; generally well liked but should be careful regarding friendships and guard against the baleful influence of fascinating types of the opposite sex. He is rather slow to anger, will not be driven, loves liberty, and is fond of occult research, art, music, literature and scientific studies. He is capricious, egotistical, inclined to worry over small affairs; will travel some. His mental quickness makes him very apt in any trade or profession; is adapted to the minor business pursuits and his possibilities in life are good if he improves his opportunities, as he can succeed in almost any line of work he may decide to do.

The woman born in this sign is faithful and devoted in home life and to her friends, but when her confidence is abused she is apt to become treacherous and cruel. She is intuitive, fond of society and likes to dress well; has common-sense views, quick understanding and usually wins the respect and admiration of others; has great power over men for good. She is very industrious, honest, and could succeed in any vocation she might apply herself to; is careful in money matters, careless about promises; has many friends and thinks much of them, also her relations; generally marries well; is a credit to her husband and usually is happy and contented with her family.

Those born under this sign have magical ability to heal and to control insane people. Congenial and business companions will be found in Aries, Leo, Capricorn and Sagittarius born, but marriage partner is best with those born in Aquarius or Libra. Gems, Amethyst, Sapphire, Opal, Carbuncle, and the colors blue, Nile green and salmon pink.

WEATHER FORECAST FOR MARCH, 1925

1st to 3d—MILD PERIOD. Mild and soft weather general in the Western, Central and Southern sections. General rains in the Middle Atlantic and New England states.

4th to 8th—BLUSTERY PERIOD. Colder, with rough, windy weather in Western and Southwestern sections. Squally conditions, with snow flurries in the Lake region and New England.

9th to 12th—UNSETTLED PERIOD. Sudden dashes of rain and hail, accompanied with thunder in Mississippi, Alabama, Tennessee and Georgia. High winds in the Northwest and Lake region.

13th to 17th—COLD PERIOD. Cold weather for this season of the year at all points in Western and Central sections. Freezing weather as far south as Little Rock and Chattanooga.

18th to 21st—STORM PERIOD. Rough and windy in the Southwest sections. Sudden dashes of rain in the lower Mississippi valley and South Atlantic states.

22d to 26th—MILD PERIOD. Clear and pleasant weather prevailing at most points North and South. Slush and mud general in the Central and Middle Atlantic states.

27th to 31st—COLD PERIOD. Cold north winds, with snow flurries in the northern half of the country. Clear and fair in the Central and Northeastern portions.

HINTS TO FARMERS FOR MARCH

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Plow early soils, sow early oats, potatoes, peas, spinach, radishes and set onions. Prepare compost manures. Top dress grass and lawns. Prune trees, shrubs and vines, graft fruit.

MARCH'S MISERIES.—There is no more disagreeable month in the year. It is a hard one on elderly people. Warm days and cold ones, bright Sunshine and terrible storms. The great struggle between Winter and Summer takes place this month and woe to the person who is taken sick at this time, for they seldom recover. The blood is thick and sluggish from feeding on concentrated foods. Fever, blood disorders, headaches, and general debility will so weaken the system that any contagion may be contracted.

DAILY GUIDE—MARCH

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. An uncertain day
2. Splendid for business, social affairs and amusements.
3. Be conservative and cautious in all affairs.
4. Good for association with people generally.
5. Tends to excitement, use caution in all things.
6. Good for business, ask favors within reason.
7. Excellent for new experiences and all efforts.
8. Somewhat unfavorable, deal with opposite sex.
9. Good for business and general duties.
10. Seek work, ask favors, get acquainted.
11. Good for religious affairs, quiet recreation.
12. Good for general affairs and ordinary activity.
13. An active day, avoid accidents and arguments.
14. Excellent for important business, marriage and friendships.
15. Uncertain,
16. Good for active and aggressive business.
17. Not a good day for starting new business efforts.
18. Visit friends and relatives,
19. Use caution, avoid hasty decisions, risky ventures.
20. Good, conditions are very favorable.
21. Start new business, deal with opposite sex.
22. You can accomplish much useful work to-day.
23. Splendid for business, social affairs and amusements.
24. Buy carefully, push business, make friends.
25. Excellent for study, writing, lectures
26. Good for shopping, short trips, general duties.
27. Doubtful, avoid excess over-confidence.
28. Fairly good for general affairs, especially domestic.
29. Deal with progressive people,
30. Good for general and social matters.
31. Be active to-day and cautious; avoid disputes.

ZODICAL TENDENCIES PISCES PEOPLE

Born from Feb. 19 to Mar. 20, any year

General characteristics. Pisces is a mutable, dual, fruitful, feminine, negative, serving, watery sign. Expresses emotion, flexibility, restlessness, rules feet and females in marriage.

The man born in this sign is faithful, timid, sympathetic, loving, honest, industrious, neat, particular, loves order and completeness, fond of mystery, romance, music and beautiful scenery; fears ridicule, is restless, inquisitive, apprehensive, self-contradictory, critical, positive in opinion and generally puts too much confidence in the words and promises of friends, when opposed becomes obstinate and disagreeable; generally successful in any mechanical trade or profession which requires fine finish and attention to detail; likes roaming but not new ventures; finds it difficult to change habits, customs and beliefs, but likes change of scene and travel; worries over trifles; is faithful and inclined to be exacting in domestic affairs; likes to make those dependent upon him happy and comfortable; would be more successful in partnership than in individual undertakings. Choice of occupation is wide and generally leads to moderate success in agriculture, labor, trade or profession.

The woman born in this sign is an excellent housekeeper and orderly, untiring in her efforts to accomplish something; inclined to the habit of self-censure and lacks self-reliance; allows her imagination to go to extremes at times, judging wrongly, and serious trouble is the inevitable result through her heart-breaking anxiety and foolish emotions. She is kind-hearted and loving, sensitive and exacting; faithful in domestic life, likes all that is good and refined; does not show her affections openly, is apparently stubborn at times, but easily coaxed, too generous and sympathetic. She is destined to have a large family and to live to an advanced age; generally marries more than once, is fond of talking, change of scenery and recreation; remembers clearly anything seen in which she takes an interest.

Gems, Bloodstone, Chrysolite, Pink Shell, Moonstone. Colors, emerald, green, pink, white and black.

The most congenial companions are perhaps found in Capricorn and Virgo people. But for the woman of this birth sign, the Cancer born man would suit best, generally.

Formula For Telling A Girl's Age.

Girls of a marriageable age do not like to tell how old they are; but you can find out by following the subjoined instructions, the young lady doing the figuring: Tell her to put down the number of the month in which she was born, then to multiply it by 2, then to add 5, then to multiply it by 50, then to add her age, then to subtract 365, then to add 115, then tell her to tell you the amount she has left. The two figures to the right will tell her age, the remainder the month of her birth. For example, the amount is 620; she is 20 years old and was born in the sixth month, (June.) Try it.

WEATHER FORECAST FOR APRIL, 1925

1st to 3d—UNSETTLED PERIOD. Rain and sleet in central Mississippi and Ohio river valleys. Snow flurries in the Middle Atlantic and New England states.

4th to 8th—PLEASANT PERIOD. Fine Spring-like weather over the South and Southwest portions. Clear and fair at all points in the Northwest and Central sections.

9th to 13th—RAIN PERIOD. A general rain wave with floods and washouts in the Hudson, Susquehanna and Ohio river valleys. Thunder storms in the Southern and Gulf states.

14th to 17th—COOL WAVE. Bright and cooler in the West and Northwest portions. Frosty conditions in the Middle Atlantic and New England states.

18th to 21st—CLOUDY PERIOD. Foggy and damp over Southern and Central sections of the country. Strong gales over the Great Lakes and along the North Atlantic coast.

22d to 25th—COOL PERIOD. Low temperature for this season in Kansas, Missouri, Kentucky and the Virginias. Heavy frost in the Northwest and region of the Great Lakes.

26th to 30th—WARM PERIOD. Advanced season at all points, except in the Appalachian mountain region and states of the North Atlantic slope, where cloudy and sultry weather will prevail.

HINTS TO FARMERS FOR APRIL

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Sow wheat, barley, rye, peas, beans and oats. Transplant cabbage, lettuce and sow all spring vegetables. Horses require full allowances of feed this month. Plant potatoes and shrubs, vines, etc.

APRIL'S AFFLICTIONS.—April is not so much of a month to contract disease as it is to convalesce. If you have escaped disease thus far into the year you should now begin to "clean up." Malaria, boils, bilious attacks, blood diseases, catarrh and skin eruptions begin to show; neuralgia and nervous troubles generally will add to the pangs of other disorders.

DAILY GUIDE—APRIL

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matters.

1. Seek work, write letters; avoid haste.
2. Seek work, ask favors, push business.
3. Doubtful, plan and be hopeful.
4. A good day, deal with the opposite sex.
5. Uncertain for most things; keep quiet.
6. Good for shopping, paying bills, making friends.
7. Favorable for recreation
8. Unfavorable for marriage unless born on this date.
9. Pay attention to health, push business.
10. Good for regular duties and amusements.
11. Good for business, correspondence; keep busy.
12. Do not travel or remove; avoid females.
13. Uncertain; avoid disputes; attend usual duties.
14. Visit friends; ask favors; have confidence.
15. Travel; push business; generally favorable.
16. Make haste slowly; be frank and open.
17. Good for active and aggressive business.
18. Adverse; avoid misjudgment and excess.
19. Good for routine duties and domestic affairs.
20. Transact business; look after affairs of long standing.
21. Good for social calls
22. Start new business; attend to important affairs.
23. Be careful. A doubtful day.
24. Good for dealing with people generally.
25. Splendid for business, social affairs and amusements.
26. Not good to ask favors; seek light recreation.
27. Fairly good for shopping, and domestic affairs.
28. Good for correspondence and visiting.
29. Good for visiting, correspondence,
30. Several aspects operate, good, adverse, be cautious.

ZODICAL TENDENCIES

ARIES PEOPLE

Born from March 21 to April 19, any year

General characteristics. Aries is a masculine, positive, cardinal, fiery, equinoctial sign. Expresses ideality, ambition, intellect, rules head, face, friends and relatives.

The man born in this sign has mental energy, more or less headstrong or impulsive ambitions, full of enterprise and new ideas, is persistent, determined, self-willed, dislikes a master; quick to resent abuse or imposition, but forgiving and will not hold a grudge for long; liable to go to extremes through indignation, hasty speech or lack of discretion. Is at his best when in an executive position. He is very generous, though quite set in his way, stubborn and harsh at times and inclined to be careless in his statements. Generally marries a good woman, but not an early marriage, has a long lease on life; is active in the direction of the public good, and faithful to friends, but does not easily forgive an enemy. Loses his finest opportunities through anger and by not carefully considering all things before engaging in an enterprise.

The woman born in this sign is high-strung, especially capable, but very impatient and irritable under restraint and does best when left to her own methods. She likes a wide range of activity, is shrewd and in business matters should trust to her own intuition. She is a splendid companion, likes music, dancing, home games and outdoor sports. She should be careful in confiding secrets, is easily deceived by those she loves, is respected and honored by the opposite sex and generally has several love affairs favorable to herself. She is apt to marry more than once and while she makes a good wife, she is naturally inclined to business and often engages in it. She has decided ideas, is very generous, but apt to consider her own interests first. She destroys her best talents by hasty judgment, quick temper and jealousy; will frequently find herself mistaken.

Gems, Diamond, Amethyst, and the colors pink, white. Best conjugal mates, Leo and Sagittarius persons, but you would also mate well with your own sign and find pleasant companions in those born in it.

WHERE TO GET ATLAS COMPOUND

ATLAS COMPOUND is so well known and its reputation so firmly established, that it can be obtained of first-class druggists everywhere. If they do not have it on hand they can get it for you from their jobbing house.

ATLAS COMPOUND aids nature to correct disorders of the Stomach, Liver and Kidneys. It induces these organs to function properly. Removes the mucous, slimy and catarrhal coating of the stomach and intestines so that every bit of food eaten is digested, assimilated and carried into the blood stream to feed the tissues.

WEATHER FORECAST FOR MAY, 1925

1st to 4th—RAIN PERIOD. Wind and showers, accompanied with hail and lightning in Texas, Oklahoma, Arkansas, Tennessee and Kentucky. Heavy showers in the Virginias and Maryland.

5th to 9th—FAIR PERIOD. Fine agreeable conditions in the Western, Southern and Middle Atlantic states. Damp and foggy in New York state and along the New England coast.

10th to 13th—UNSETTLED PERIOD. Rather cool and backward weather for May at all points in the North-west and over western and central sections. Variable conditions in the Gulf states.

14th to 18th—WARM WAVE. Advanced heat for this month in Kansas, Missouri, Iowa and states of the Lake region, and upper Appalachian mountain highlands.

19th to 24th—STORM PERIOD. Heavy rain storms in Texas, Oklahoma and Kansas, with tornado tendencies in Missouri, Illinois and Kentucky. Cool in the Northwest and Canadian provinces.

25th to 27th—FAIR PERIOD. Continued cool weather in the states of the Northwest, the Rocky mountain highlands and at points in the Middle West. Partly cloudy in the Lake region.

28th to 31st—STORM PERIOD. Great storm wave sweeping out of the Southwest and speeding over southern and central sections. Dangerous gales on the Great Lakes.

HINTS TO FARMERS FOR MAY

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

All the principal crops should now be planted, all tender vegetables can now be set out without danger such as corn, beans, cucumbers, celery and asparagus. Finish planting flowers and shrubs. Look after calves and lambs during cold, chilly storms. Set eggs.

MAY'S MORTALITY. May is an unfortunate month for the sick. More people die in May than in any other month in the year.

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. A doubtful day, help others.
2. Unfavorable for marriage, good otherwise.
3. Good and adverse aspects operate to-day.
4. A day for doing good; avoid accidents.
5. Push business, plan and correspond.
6. Good
7. Be careful in important transactions.
8. Travel and ask favors, make appointments.
9. Rather uncertain, attend to correspondence.
10. Good for routine affairs.
11. A good day, ask favors, avoid inharmony.
12. Uncertain, plan, avoid excess.
13. Visit relations, rest, retire early.
14. Good for regular duties and business activity.
15. Deal with opposite sex, make appointments.
16. Unfavorable for travel.
17. Unfavorable for marriage, good for amusements.
18. Fairly good for ordinary pursuits.
19. Benefits matters of business and conferences.
20. A doubtful day, visit, attend
21. Good for general affairs, avoid quick decisions.
22. Sell, seek business, correspond.
23. Favorable for practically all endeavors.
24. Not good to ask favors of superiors.
25. Generally good.
26. Push business and social affairs.
27. Inclines to restlessness, visit, be quiet.
28. Good for important engagements, especially domestic.
29. A doubtful day, avoid quick decisions.
30. Benefits matters of business, pleasure and social affairs.
31. Good for routine affairs, domestic duties.

Born from April 20 to May 20, any year

General characteristics. Taurus is a fixed, earthy, intellectual, feminine, negative sign. Expresses will, power, purpose, rules the neck, throat, also travel.

The man born in this sign is firm, self-reliant, persistent, determined, secretive, reserved and courageous; when angered, furious, headstrong and unyielding. He is slow, patient, plodding, has great physical vitality, sincere, reliable, a faithful friend, steadfast and loyal when put to the test and real necessity arises, but abusive, even to friends when excited or angry. Has keen intuition in all that pertains to practical business, makes few blunders; has good executive ability, also makes a good agriculturist. He is more fortunate in money matters than in love affairs; prefers strangers to relatives; likes to have his own way and is generous in so doing, inclined to interfere in other people's affairs which causes him to be much disliked. He generally lives to old age, has but few real friends and many enemies; likes pleasure and high living, often occupies high positions and becomes wealthy.

The woman born in this sign has a warm-hearted, generous, clinging nature; always ready to bear the burdens and sorrows of those she loves; is an excellent housekeeper, and does not dislike manual labor, but is more fond of a life of ease and pleasure than one which calls for great activity. She will succeed well in lines that pertain to women's affairs. When angered, she becomes furious and says just what she means, regardless of consequences. She should guard against being led away, or misled through sympathetic feeling or flattery. She is careful and economical, has good opportunities for marriage, sometimes makes a mistake, gets a penurious husband and the domestic life is then unhappy. Divorce and second marriage are the consequence and happy result.

Most congenial partner will be found in Virgo and Capricorn born and not infrequently in Libra.

Gems, Moss-Agate, Emerald, and the colors red and yellow.

FOR YOUNG MEN AND WOMEN

Character by the month.—There is an old astrological prediction said to indicate, with tolerable certainty, the character of the female child according to the month in which she happens to be born.

If a girl is born in January, she will be a prudent housewife, given to melancholy, but good tempered.

If in February, a humane and affectionate wife and tender mother.

If in March, a frivolous chatterbox, somewhat given to quarreling.

If in April, very impatient, irritable and high-strung and is apt to marry more than once.

If in May, handsome and likely to be happy.

If in June, impetuous, will marry early, and be frivolous.

If in July, passably handsome, but with a sulky temper.

If in August, amiable and practical and likely to marry rich.

If in September, discreet, affable, and much liked.

If in October, pretty and coquettish, and likely to be unhappy.

If in November, liberal, kind and of a mild disposition.

If in December, well proportioned, fond of novelty and extravagant.

WEATHER FORECAST FOR JUNE, 1925

1st to 4th—CLOUDY PERIOD. Threatening weather in Kansas, Colorado, Nebraska and South Dakota, with tornado tendencies. Stormy conditions in the Lake region.

5th to 8th—RAIN PERIOD. Showery weather will prevail from Kansas to Minnesota. Foggy and damp over the Great Lakes, New York and New England.

9th to 12th—PLEASANT PERIOD. Mild seasonable weather at all points in the Southwest and Gulf states. Fair and cooler in the Lake region and St. Lawrence river valley.

13th to 17th—SULTRY PERIOD. Hot and sultry conditions in the states of Mississippi, Alabama, Georgia, Tennessee and Kentucky. Hail storms in Arkansas, Missouri and Iowa.

18th to 20th—SHOWERY PERIOD. Severe lightning and thunder storms at many points in the West and Southwest. Local thunder storms from the Carolinas to Pennsylvania.

21st to 26th—FAIR PERIOD. Clear and pleasant conditions prevail in the states extending from Colorado to Minnesota. Seasonable conditions in the Central and Middle Atlantic states.

27th to 30th—UNSETTLED PERIOD. Damp and foggy on the Gulf and South Atlantic coast. Local showers in New York state and New England.

HINTS TO FARMERS FOR JUNE

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Plant all Fall vegetables, potatoes, turnips, carrots, pumpkins and cabbage. Haying and harvesting will now begin. Look after the berries.

JUNE'S DISEASES. — The diseases prevalent this month are mostly of the Stomach and Liver, Dyspepsia, indigestion, inflammations and eruptions. This is the month that Cancers and Tumors develop. Purify and enrich the blood and drive out all impurities with a good cathartic and you will avoid the diseases of June.

DAILY GUIDE—JUNE

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. Transact important business, but avoid risky deals.
2. Good for quiet recreation
3. Good for amusements and outdoor sports.
4. Good for shopping, visits, correspondence.
5. Use cautions in all affairs, especially motor-ing.
6. Smooths unpleasant conditions, favors un-derstanding.
7. Good for dealing with people generally.
8. Excellent for new and important business.
9. Keep quiet to-day.
10. Ask favors, seek work and get acquainted.
11. Good for practically all lines of work and business.
12. Avoid risky ventures or doubtful responsi-bilities.
13. Be cautious in agreements or correspond-ence.
14. Deal with those in executive positions;
15. Not a day to choose for very important matters.
16. Favors outing trips
17. Good for general work, attention to things delayed.
18. Good for important matters, deal with oppo-sites.
19. Good for business requiring self-control.
20. Best for important business transactions in the morning.
21. Do business, sell, ask favors.
22. Plan to-day, do it to-morrow.
23. Rather doubtful,
24. Not good to seek promotion or ask favors.
25. Travel, buy, sell, speculate.
26. Uncertain, give attention to details.
27. Favorable for general affairs.
28. Benefits business; ask favors.
29. Fairly good; avoid hasty decisions.
30. A good day.

ZODICAL TENDENCIES GEMINI PEOPLE

Born from May 21 to June 20, any year

General characteristics. Gemini is a mutable, dual, barren, human, mas-culine, positive, intellectual, airy sign. Expressions emotion, flexibility, rest-lessness. Rules arms, hands, shoul-ders, collar bone and lungs, friends and enemies.

The man born in this sign is kind-hearted, sympathetic, affectionate, fond of home and children, loves change and diversity; has an ac-tive mind and can be relied upon in an emergency. Always likes to be busy, has a doubtful nature, hard to understand, but versatile, dex-trous and skillful with the hands and has considerable mechanical ability, generally a good writer and capable of filling important positions, inclined to be too generous and superficial. He is fond of the opposite sex, fickle in his affections, but loves only one woman at a time; likes education, travel, has many friends and some secret enemies through jealousy, is apt to pass judgment on others and without considering his own faults. Can easily adapt himself to any en-vironment.

The woman born in this sign is a natural home-maker likes everything that is artistic and beautiful, is af-fectionate, and thoughtful for the comfort of others; likes to be doing several things at a time owing to her impatient nature; is too generous for her own good; seeks frequent changes when employed; makes a good teacher and can do almost anything in cler-ical and millinery lines. She is very active and inclined to worry, easily influenced, somewhat jealous, and suspicious, generally attractive. Has powerful imagination, and quick to grasp the thoughts and schemes of others. Honesty with her is a vir-tue; liable to go to extremes; but can adapt herself to most any condition in life. Ill health is usually brought on by too much activity, excitement and over-work mentally and hysteria is one of the dangers. She should keep free from anxiety, worry and nervousness and get plenty of sleep.

You will find helpful and devoted friends in Virgo and Aries born, but your conjugal mate, if your restless nature finds one, will be best in Libra, Aquarius, or your own sign.

Gems, Beryl, Aquamarine and the colors red, white and blue.

FAT OR THIN PEOPLE

An abnormally rapacious appetite indicates a morbid constitution of the digestive tract and needs correcting even more than lack of appetite. People are thin, or take on a bloat-ed, distressing fatness and remain so, because of imperfect, feeble digestion, disturbed or incomplete assimilation; the digestive forces are slow, and not commensurate with the de-mands of, or the waste in the physical organization. ATLAS COMPOUND is the sheet anchor of health—the secret of a long life—itsself a digestive independent of the stomach's diges-tive forces, also an appetizer, a corrector of impaired digestion, constipation, torpid liver, and an invigorating tonic to weak, feeble stomach digestion; it thus secures the happy health medium of not too fat nor too lean, and lessens the liability to paralysis.

WEATHER FORECAST FOR JULY, 1925

1st to 3d—RAIN PERIOD. Heavy rains over the states of the Appalachian highland, the Gulf slope and Mississippi valley. Thunder storms in Wisconsin, Minnesota and both Dakotas.

4th to 9th—WARM WAVE. Higher range of temperature at many points, except in the extreme highland regions. Droughty conditions along the Pacific slope and states of the Northwest.

10th to 13th—SULTRY PERIOD. Sultry and dry weather prevailing over the entire Rocky mountain region and the Southwest. Extreme heat in the Southern and Gulf states.

14th to 17th—SHOWERY PERIOD. Great electrical activity and heavy downpour of rain in Pennsylvania, New York and New England states. Hail storms in Wisconsin and Michigan.

18th to 22d—WARM WAVE. Clear and warm weather in Western and Southern sections. Prolonged drought period in the states of the Pacific slope.

23d to 26th—CLOUDY PERIOD. Partly cloudy and threatening weather in the Western, Central and Eastern sections. Heavy fog over the Great Lakes and along the Gulf coast.

27th to 31st—SULTRY PERIOD. Intense heat, with many prostrations from sunstroke in the Central and Middle Atlantic states.

HINTS TO FARMERS FOR JULY

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Make pickles, transplant cabbage, hoe corn and potatoes, bank up celery, propagate your plants by slips and cuttings. Harvesting is now over. Wash and shear sheep.

JULY'S TROUBLES.—This is also a bad month for people with weak stomachs, as a consequence the list of "Summer Diseases" is large. Diarrhoea, Dysentery, Sunstroke, Insomnia and Vertigo prevail.

DAILY GUIDE—JULY

On all good business days, a person can seek favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. Rest, recreate, avoid accidents in motor-ing.
2. Exercise caution in agreements and prom-ises.
3. Good for necessary duties
4. A good day in all business affairs.
5. Uncertain, be cautious when indulging in pleasures.
6. Unfavorable for starting new ventures, good socially.
7. Splendid for business and amusements.
8. Push business, but avoid tendency to pro-duce discord.
9. Good for health and quiet recreation.
10. Seek favors, deal with opposite sex.
11. Good to correspond and bring matters to a close.
12. Push business, travel, sell, ask favors.
13. Good for shopping and domestic affairs.
14. Exercise caution in promises, agreements, loans.
15. Very favorable, but ask favors within rea-son.
16. A quiet day, write letters, visit, travel.
17. Good for general business duties.
18. Excellent for business, marriage, friend-ships.
19. Both favorable and unfavorable aspects oper-ate to-day.
20. An active day, avoid arguments.
21. Excellent for all efforts, travel, recreation, new experiences.
22. Push business, sell, deal with opposite sex.
23. Good for religious affairs, visiting friends and relatives.
24. Ask favors, get acquainted, correspond.
25. Favorable socially, do good to others.
26. Uncertain, attend regular duties.
27. Favorable for domestic affairs.
28. Good for business, social and health mat-ters.
29. Attend to usual business duties.
30. Keep quiet, study, meditate, make good resolutions.
31. Good for business and correspondence.

ZODICAL TENDENCIES

CANCER PEOPLE

Born from June 21 to July 21, any year

General characteristics. Cancer is a watery, cardinal, tropical, fruitful, feminine, negative, maternal, movable sign. Expresses intellect, ambi-tion, ideality. Rules breast, stomach, health and life.

The man born in this sign is quiet, reserved, highly sensitive, versatile and changeable; has many ups and downs and changes of occupation; loves nature, adventure and strange expe-riences; is industrious, frugal, at-tached to home and family, influ-enced greatly by surroundings; is mediumistic and very conscientious, painstaking often to a fault, is fond of saving, too careful in detail and lacks faith in the future. He has much mechanical ability and execu-tive force, slow to adopt new meth-ods. He is lively, fond of women, show and dress, forgives an injury but does not forget it. He generally marries well, does not want or be-comes very wealthy, lives to good age and loses friends through his own actions towards them. Succeeds best in pursuits in which the public is interested, or in occupations con-nected with the sea or liquids.

The woman born in this sign has a merry disposition, is fickle in love affairs, gay and talkative, but makes a devoted wife and mother, a good housekeeper, neat and orderly. She is generally active in church work, modest, conscientious about giving advice, possesses much dramatic and musical ability, with artistic talent, parsimonious in living expense; likes all kinds of amusements, fond of dress, display and jewels. She gener-ally marries more than once, is des-tined to have a large family, is pas-sionate and emotional, kind-hearted and can easily put up with inconven-iences. Inherits money or property from relatives. Liable to suffer from weak stomach, gastric troubles, and worry concerning family and domestic affairs. She should be very careful in choosing her mate to save future unhappiness. Those born in Pisces or her own sign make the best con-jugal marriage partners. The man will find his is Pisces, Virgo, or Libra born. These people need the marriage experience to bring out the higher qualities of love and equality.

These are the people who are eco-nomical, fond of saving, who are afraid and ashamed of poverty, who save and hoard, who are happy and comfortable during the day, but un-happy and depressed at night.

Gems, Emerald, Black Oynx. Colors green, russet.

A GOOD DIGESTION

It is better to correct and strengthen the digestive power than to be obliged to diet, to eat this or that only, or to live on specially prepared so-called foods. If the system is not maintained at a normal condition of flesh and fat, and kept constantly freed from calca-reous and earthly deposits, and from effete matter, by means of the proper digestion of an ample food supply, there must be emaciation, a present or an early decline, or an unhealthy flabby fatness; an inability to withstand exposure; liability to Kidney Diseases and Blad-der affections; sensitive to change of seasons; proneness to Neuralgia; Pain in the Groin; liability to frequent Grip, Bronchial attacks, or Pneumonia, and a liability to any disease flesh is heir too. A single box of ATLAS COMPOUND may remedy these conditions.

WEATHER FORECAST FOR AUGUST, 1925

1st to 3d—SHOWERY PERIOD. Local thunder storms in the Central, Middle Atlantic and New England states. Cloudy and unsettled in the Northwest and Lake region.

4th to 9th—WARM WAVE. General prostration from heat at many points in the Southwestern, Central and Eastern sections. Tendency to drought in Nebraska and both Dakotas.

10th to 14th—STORM PERIOD. Showery conditions in states bordering on the East Gulf and South Atlantic coasts. Local thunder storms in Kansas, Nebraska and the Dakotas.

15th to 19th—PLEASANT PERIOD. Clear and fair in Montana, North and South Dakota and Minnesota. Cool nights and clear days in Western, Central and Eastern sections.

20th to 23d—WARM WAVE. Higher temperature in Montana, Wyoming, Nebraska and both Dakotas. Cloudy in the region of the Great Lakes, St. Lawrence valley and New England states.

24th to 26th—HOT WAVE. Warm days with unusual sultriness will prevail at most points in the Western, Central and Southern states. Temperature 100° at Topeka and 104° at Atlanta.

27th to 31st—UNSETTLED PERIOD. Cloudy and rain over the Lake region, Middle Atlantic and New England states. Threatening in the lower Mississippi valley.

HINTS TO FARMERS FOR AUGUST

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Sow turnips, hoe and cultivate corn and potatoes. Look well to the dairy and fodder. Pack eggs, feed the pigs plenty of green vegetables.

AUGUST AILMENTS. There is no time in the year when the effects of the weather is felt so much as in August. The blood gets overheated and ferments. Heart Disease, Fevers and Agues prevail, food spoils easily and causes bowel troubles. There is no reason why people should suffer so much more this month than any other.

December

DAILY GUIDE—DECEMBER

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. Favorable for practically all lines of endeavor.
2. Excellent for business, ask favors.
3. Good for business affairs; ask favors within reason.
4. Good for shopping, short trips, visits, planning.
5. Good all day for everything.
6. Rather favorable for general pursuits.
7. Planetary aspects are excellent for important business.
8. Good, visit, correspond, read, recreate.
9. Not good to ask favors or deal with opposite sex.
10. Buy, sell, speculate in the morning.
11. Be guarded about making important changes.
12. Good for dealing with opposite sex and planning.
13. A good day; seek work; ask favors and travel.
14. Attend to usual duties. aspects fairly favorable.
15. Excellent for social matters, favors
16. Aspects uncertain to-day.
17. Sign writings, travel, but do not speculate.
18. Good for social and love affairs.
19. Unfavorable in morning, good in afternoon.
20. Good for usual duties and pleasure.
21. Push business and all general work.
22. Seek harmony, rest and recreation, do good.
23. Disappointments alternate with success to-day.
24. Deal with opposite sex and start new business.
25. Uncertain, avoid haste and anger.
26. Good for routine duties and domestic affairs.
27. Unfavorable for marriage; good for amusements.
28. Fairly good for general activities.
29. Favorable for religious affairs, and recreation.
30. Be cautious, rather unfavorable.
31. A good day, push business, seek favors.

ZODICAL TENDENCIES SAGITTARIUS PEOPLE

Born from Nov. 22 to Dec. 22, any year

General characteristics. Sagittarius is a dual, human, masculine, positive, reproductive, fiery sign. Expresses emotion, flexibility, restlessness. Rules hips, thighs and liver, hope and success in new enterprises. The seer and the prophet are born in this sign.

The man born in this sign is direct, outspoken, active, jovial, hopeful, generous, self-reliant, honest, honorable, ambitious, persevering, and not easily discouraged. Loves liberty, freedom, outdoor sports and nature. Dislikes masters and will not be driven; is blunt, impetuous, impulsive, jumps to conclusions; seldom becomes flurried under great excitement. He has good executive power and prompt decision, ability to command where it is necessary to think quickly; likes to do good and can generally be depended upon; seldom mistaken when he follows his own inspirations; dislikes secretiveness; likes travel. Has good mechanical ability and is a "Jack-of-all-trades." Often meets with family troubles and misfortune in business. His good fortune comes mostly through his opposite sex, also most of his troubles; he is seldom without money. His generosity and what he does for others is often paid with ingratitude. When there is no special need for activity, he often seems dull, uninteresting and even indolent. In old age, he reflects on the mistakes of youth.

The woman born in this sign is fond of domestic and social life, an orderly housekeeper, economical, but not penurious, always busy; does not meddle in the affairs of others. She is quick-tempered, never bears malice, seldom forgets an injury; always does one thing at a time and puts her whole strength into it. She is often too quick and decisive, sometimes misunderstood. She has but few children, is very loving and devoted in the home life and expects similar consideration from her husband. She hates anything underhanded, rarely makes mistakes when she follows her own inspirations and should not rely on advice of others. When deceived or ill-treated it is apt to embitter her future happiness.

As the lot of those born under this sign is to be misunderstood, it is best for them to have very few confidential friends; to think well and in silence before deciding on any important matter. They should be very careful in marrying, as serious troubles are apt to occur from uncongenial unions.

Congenial associates are found in Aries, Leo, Libra and sometimes Scorpio born. The most fitting martial companion will be found in Leo or Aquarius and sometimes Libra.

Gems, Carbuncle, Turquoise, and the colors red, green, gold.

Your health is at stake when you are NOT well. Do for yourself what you may, but always TRY ATLAS COMPOUND when the occasion for medicine arises. In medicine it stands FIRST and very often is the only remedy needed. ATLAS COMPOUND is really the BEST and CHEAPEST medicine. IT IS SOLD BY YOUR DRUGGIST.

TABLES OF PLANETARY HOURS FOR DAILY USE AND THEIR MEANING

By using the fortunate hours for general activity and matters of importance this information may be found helpful.

Every planet rules certain departments of life and each hour of any day after sunrise is ruled over by one of the planets, and this hour will be generally good or adverse according to the nature of the planet and the description of matters or things ruled by it. In choosing the time to begin enterprises or events of importance, business and travel it is well to do so in a good hour, as planetary hours are used by Astrologers and others with good effect and have been recognized for ages.

If you are deciding on doing anything connected with important matters or occupation ruled by the particular planet of any day or have business or experience coming under the general description of a certain planet, first determine which planet it would come under, then take the day that planet rules the first hour after sunrise and choose an hour ruled by the planet for your purpose as this will double the advantage in your favor.

Study the description of the different planets so that you may first know the one which your special business comes under. If you have a paper or contract to make and sign, this would come under Mercury, the planet ruling Wednesday, as this would prove more favorable than a Mercury hour on some other day. If sun rises at 6:16 A. M. on Wednesday, the 1st, 8th, 15th and 24th hours after sunrise would be the good planetary hours of Mercury.

Mars rules Tuesday. If you wanted to do something that came under the description of this planet and the sun rises at 6:10 A. M. the first good hours would be from 6:10 to 7:10, the second good hour from the 8th hour after sunrise to the 9th, or an hour.

If your ruling planet is Jupiter—and the description of the business matter you wish to consummate comes under Jupiter which rules Thursday, it would be especially favorable to you in these good Jupiter hours of this day.

No one is absolutely ruled by any planet or sign, but some people respond to the influence of different ones. Very few people govern themselves and are greatly influenced by conditions, each in proportion to the amount of their knowledge and the use they make of it, or the lack of it.

Sun—Planet of light rules Sunday. Good hours ruled by it after sunrise on each day of any week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
1st	5th	2nd	6th	3rd	7th	4th
8th	12th	9th	13th	10th	14th	11th
15th	19th	16th	20th	17th	21st	18th
22nd		23rd		24th		

Description—In the good hours of this planet ask favors and make applications for employment of those in good position and authority, also of those in political and government office, and try for promotion. State your request or proposition to them plainly and earnestly. Good to ask favors of managers, employers and influential people. Send out advance notices and make public announcements. Seek that which is lost, give presents, think of others. A critical hour for those taken ill. This is not a good hour for other matters.

Moon rules Monday. Good hours ruled by it after sunrise on each day of any week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
4th	1st	5th	2nd	6th	3rd	7th
11th	8th	12th	9th	13th	10th	14th
18th	15th	19th	16th	20th	17th	21st
	22nd		23rd	27th	24th	

Description of Planet Moon. Favorable for affairs connected with groceries, drinks, fresh water fish, kitchen utensils, washing, nursing, journeys by water, gain by females, increase of trade and domestic matters, canning vegetables and juicy fruits, making cider, vinegar and silo corn. Deal with common people, new acquaintances, female officials, nurses, sailors, public salesman, and things of a liquid nature. Not counted a good hour to lend money, buy cattle or begin any building.

The first hour after sunrise on Monday is counted a double advantage to begin work or attend to matters described under the good aspects of this planet—Moon.

Mars rules Tuesday—Hours ruled by it after sunrise on each day of any week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
7th	4th	1st	5th	2nd	6th	3rd
14th	11th	8th	12th	9th	13th	10th
21st	18th	15th	19th	16th	20th	17th
		22nd		23rd		24th

This hour rules courage, energy, ambition, and all work requiring pluck, perseverance, and endurance. This planet rules surgeons, dentists, machinists, soldiers, military men, engineers, carpenters and mechanical affairs generally. Good hours to study, investigate, attend to business connected with medicine, pharmacy, construction and to deal with animals, transportation, conduct business matters associated with structural iron workers, sewer builders, scavengers, lumberman, hardware dealers, stock raisers, barbers, agents, police, and to solicit and canvass. In this hour there is tendency to accidents, cuts, bruises, fires and inflammatory conditions and quarrels. Be careful, Safety First often saves suffering and expense. Not considered good for surgical operations.

Mercury rules Wednesday. Planet of intelligence and mental activity. Hours ruled by it after sunrise on each day of any week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
3rd	7th	4th	1st	5th	2nd	6th
10th	14th	11th	8th	12th	9th	13th
17th	21st	18th	15th	19th	16th	20th
24th			22nd		23rd	

Description of Planet Mercury. This hour rules friends, accounts, writing, interviews, correspondence, travel and study. Good for all mental work and matters connected with contracts, advertising, public matters, books, studies, speeches, lectures and education. Deal in merchandise, trade, buy or sell, send messages, begin journeys, lend or borrow money, ask favors from wealthy or prominent persons, begin building, plant or graft, deal with business men, commission merchants, distributors, newspapers, editors, reporters, printers, book and stationery concerns, teachers, students, lawyers, bookkeepers, architects, scientists, and young people. Good for dealing with neighbors, drawing up contracts and business generally. Not good to contract marriage in this hour.

Jupiter—the great benefic rules Thursday. Good hours ruled by it after sunrise on each day of the week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
6th	3rd	7th	4th	1st	5th	2nd
13th	10th	14th	11th	8th	12th	9th
20th	17th	21st	18th	15th	19th	16th
	24th			22nd		23rd

Description of Planet Jupiter. Good to deal with bankers, brokers, lawyers, clergymen, clothiers, merchants or provision dealers, commercial men and physicians, buy and invest, speculate, ask favors, begin new undertakings, journeys, lend or borrow money, buy cattle, propose marriage and see the way out of difficulties. If taken ill in this hour the blood or liver is apt to be affected, but the recovery will be quick. Good to sow all kinds of seeds and plant.

Good to leave home on any errand and have it end with success, especially during increase of moon as this hour gives usually good and correct judgment. Use this hour if in need of credit or in difficulty and within reason, but don't expect impossibilities.

Venus rules Friday—Hours ruled by Venus after sunrise any day in each week. Time of sunrise to be taken from this Almanac.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
2nd	6th	3rd	7th	4th	1st	5th
9th	13th	10th	14th	11th	8th	12th
16th	20th	17th	21st	18th	15th	19th
23rd		24th			22nd	

Venus the Goddess of Love. Venus hours rule love affairs, courtship, and social matters, art, music, flowers, pleasure and all dealings with opposite sex. These hours are especially good when Moon is new to buy jewelry, ornaments, or clothing and are also good for any business connected with women, courtship, proposals, marriage or pleasure, refined entertainment, social and general prosperity and popularity. Good to cultivate new friendships, seek the favor of ladies, deal with confectioners, hotel keepers, housekeepers, restaurant managers, milliners, dressmakers, clothiers, tailors, artists, singers, actors, musicians, drapers, nurses, make collections, and attend to all affairs of business.

Good to take medicine. Profit and gain may be obtained through dealings with things intended to please people. Taste for delicacies, amusement and matters associated with houses, lands and the fruits of the earth. Strive to make the most of this planetary influence in all affairs such as business, social or domestic matters.

Saturn rules Saturday—The good hours ruled by it after sunrise on each day of any week

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
5th	2nd	6th	3rd	7th	4th	1st
12th	9th	13th	10th	14th	11th	8th
19th	16th	20th	17th	21st	18th	15th
	23rd		24th			22nd

Description of Planet Saturn. Favorable to occupation, positions of trust, responsibility, and executive work, matters connected with property, beginning a building, mines, leasing and attending to business affairs generally, plodding, laborious work, digging in the earth, planning, organizing, buying grain. Deal with farmers, coal men, shoemakers, leather dealers, plumbers, undertakers, real estate matters and affairs of a slow, serious nature, and seek the favor of elderly people. Not a good hour to lend or borrow money or fall sick in, as it threatens disease apt to be of long duration. Good to pay bills and close up matters that have been dragging along.

THE EARTH IS FLAT

Copyrighted April 10th. 1905. By J. Mac Donald, M. D. Binghamton, N. Y.

Here is a theory, a change fraught with a mighty importance to science and mankind, so much so that it has been declared by some of the greatest scientists of this age, that if this discovery is true and will stand the test, it will easily rank as the greatest discovery that has ever been made in the annals of history. The following article is not new (of today) was printed in the ENGLEWOOD (N. J.) TIMES in 1885. I was then laughed at as visionary, etc., by the public. The same paper also published my articles at that time on building a railroad to Alaska as I claimed immense quantities of gold had settled around the Arctic circle. Also the article claiming electricity could be obtained direct from the Earth instead of through steam and machinery. Also the article demonstrating that by 1900 the world would be sending messages without wires by the aid of "sympathetic" instruments. Also many other wonderful predictions that have since come to pass.

In this article the object is to try to prove that the Earth is a disc a little lower in the center than at the edges, and not round like an orange, as we have been taught to believe. The writer not only believes the Earth to be a disc, but that the Moon and all the Planets are similar discs. All modern astronomers claim that the Moon and all the Planets always present the same surface towards the Earth. If they were round like a ball and revolved on an axis, they would certainly present different surfaces every day, month and year. If this is so, then the Moon and all the Planets are discs, and if they are discs, then the Earth has the same form. We have been taught that the Earth is a globe about 8000 miles in diameter, and about 25,000 miles in circumference. This when figured out gives a natural curvature of eight inches multiplied by the square of the distance, to the mile. As three-

fourths of the Earth's surface is water, then certainly every stretch of water should curve eight inches multiplied by the square of the distance, in each mile. Does it?

If the Earth were globular, the altitude of perpetual snow would be the same South of the Equator as it is North. The line of perpetual snow is highest in South America, 16,000 feet, and decreases as we go North until we reach Alaska, where it is only 2000 feet, and going still further North it is found perpetual at about 500 feet above sea level. If the Earth is round, vegetable growth would take place as near the South Pole as it does to the North Pole. The fact is, some forms of vegetation are found within 200 miles of the North Pole. Potatoes, oats, peas, barley, and other grains grow and produce crops in some portions of Greenland, Iceland, Lapland and Siberia, as far North as the Arctic circle, while not a living thing has been found South of Orkney or South Shetland Islands (70 degrees South). If the Earth is round, there would be the same amount of twilight at an equal point South of the Equator as there would be North of such a line. The fact is, there is much less. The twilight at say 40 degrees North latitude would be 90 minutes. The twilight for a corresponding time of the year at the Equator would be 15 minutes, and at 40 degrees South latitude would be less than five minutes. At Melbourne, Australia, which is in about the same degree South latitude as Philadelphia is in North latitude, Rev. Father Johnson in his late Missionary report says: "We have from five to six minutes twilight morning and evening, and we must make preparations for the night while the Sun shines, because when the Sun sets it is dark immediately. It would therefore be very evident that were the Earth a globe there would be co-equal twilight at equal points North or South of the Equator.

In 1839 Capt. James Ross, with Capt. Crozier in the Erebus and Terror made the cruise around the world as far South as they could go, or near to the Antarctic circle. From their reports they measured mountains 10,000 to 13,000 feet high, and found a mighty belt of ice barriers from 450 to 1000 feet high, which seemed to be perfectly level on top, and without any fissures or openings of any kind. The time consumed in this voyage was about four years, and the actual distance sailed as recorded by their log was about 40,000 miles. If the Earth is a globe, the distance around at this point would only be about 10,800 miles. If the Earth is a globe, the Equator line is certainly not the center, as the lines of longitude increase in width South of the Equator instead of decreasing as they do North of the Equator. This is not theory, but actual and provable fact. A degree of longitude at Tropic of Cancer is 40 miles, while it is 75 miles at the Tropic of Capricorn, and 103 miles at Antarctic circle.

A very remarkable result of soundings by Nansen, on board the Fram, shows the North Polar sea to be from 10,000 to 13,000 feet in depth, while no land is reported to be over 500 feet in height. Contrast this with Ross' report of the mountains of Antarctic being 10,000 to 16,000 feet high and the depth of water averaging but 426 feet, and the result is another proof of the disc theory, the outer edge being highest as the Earth spins around. In consideration of these newly discovered facts, astronomers and geodists now accord the Earth to be pear shaped, flat at the North Pole and drawn out at the South. Why not admit the more sensible idea, that the Earth is a disc?

Another proof that the Earth is flat, is from the Eclipses of the Sun. Take for instance the one of August 30th, 1905, visible in Western Europe and Northern Africa. The North Atlantic Ocean and Eastern part of British America, Greenland, Iceland and Eastern part of Northern Asia. (Siberia.) If the Earth was round the Eclipse COULD NOT be seen in Africa and Asia at the same time. Whereas on the Flat Earth theory, the phenomena is simple. Get out your globe and experiment.

It is a fact, determined by experiment, that gravity exerts LESS force the FARTHER AWAY we get from the North Pole. Arctic explorers tell us they can hardly lift one hundred pounds up North, while Antarctic explorers say they can lift three hundred and four hundred pounds with ease.

The SOUNDINGS taken by Nansen show that the North Polar Sea is VERY DEEP (ten to fourteen thousand feet). Capt. Ross states in his Antarctic explorations that he found soundings from four hundred to one thousand feet. Quite a difference!

If the Earth was round like a globe and revolving at the rate of 1000 miles per hour (24,000 miles in circumference turning once in 24 hours), such speed would tear everything off the surface. Or, if the attraction of gravitation overbalanced this phenomena, then if the earth was round all a person need to do to go from New York to Chicago (1000 miles) would be to go up in a balloon, stay there one hour and come down in Chicago, or stay up three hours and come down in San Francisco. The Earth being FLAT and floating quietly in space, the air currents move in different directions and clouds float like a balloon in any direction with the air currents.

The Earth FLOATS IN SPACE, but surely does not tear about at the rate of a thousand miles an hour, or it would burn up by friction. It is the rapidity with which Sun moves that give it its great heat and light.

Take as an instance the Erie canal, between Lockport and Rochester, a distance of 60 miles. According to the globular theory there should be a curvature of 6 feet, the center being 2,562 feet higher than either end, whereas the actual fall according to the state engineer's report is less than three feet. The Suez canal which has a one hundred mile level (a description of which can be found in the Encyclopædia Britannica), is another example. This canal is a simple connection of the Medeterranian sea with the Red sea, and is without locks for the entire distance. From the natural curvature of the Earth as a globe, there should be a fall of about 1,666 feet, the center being 6,666 feet higher than either end, whereas the average level of the Mediterranean sea is but six inches above the average level of the Red sea.

In standing on the shore of the ocean a vessel apparently goes down from the horizon so that only the masts are visible. But if sighted with a powerful glass the hull again comes into full view. Would this occur if the water was curved? In standing between the rails and looking ahead on a level stretch of road at the distance of about a mile, the rails apparently come together. Is this accounted for on the same theory as the ship again coming into view, when it had apparently gone below the horizon? We are taught that the Earth is a huge magnet, and that it is this magnetism which causes the needle of the compass to be attracted to the North Pole. If the Earth is a globe, the needle should reverse in going South of the Equator and point to the South Pole. This ought to be proof positive that the Earth is a disc in that the needle always points to the center regardless of the location of the compass. Also that the greatest circumference is below the Equator, and the least at the North Pole.

If the Earth were a globe the Mississippi river would certainly run up hill, as its source is lower than its outlet. According to the globular theory, the equatorial radius of the Earth is 13 miles greater than the polar radius, hence a point at the Equator is 13 miles farther from the Earth's center than a point at either pole. The Mississippi river rises in latitude 50 degrees, flows directly toward the Equator a distance of 30 degrees, or one-third the distance from the Equator to the pole, hence its outlet is four and one-half miles farther from the center of the Earth than its source, after deducting one-third of a mile that its source is above sea level. Does water run up hill? Here is another fact, easily determined, that the greatest gravity is at the North Pole, and exerts less and less force as we go south. If gravity was the cause of the fall of water, then one would wonder why the waters of the oceans did not rush to the pole. Here is the proof of the disc—centrifugal force, caused by the rapid rotation of the Earth holds the waters in place, notwithstanding the force of gravity. The centrifugal force being exhausted in maintaining the sea level, the flow of water anywhere above sea level is caused by gravity only.

If the Earth is globular the North Star should not be seen South of the Equator, while in fact it can be seen 30 degrees South of that line. If the earth is round, there should be a period of three months day and three months night at the Antarctic as well as at the Arctic circle, whereas according to the Nautical Almanac published by the bureau of navigation at Washington, the longest continued day at South Shetland Island (70 degrees South), is 19 hours, 53 minutes. At Hammerfest, Norway (70 degrees North), the longest continued day is three months. If the Earth were round, a degree of longitude would cover the same number of miles at 50 degrees South latitude that it would at 50 degrees North latitude: whereas the distance between the Cape of Good Hope and Cape Horn, while being about the same number of degrees apart as London and New York, the actual number of miles sailed, or actual time taken in making the distance, is more than twice as much between the Cape of Good Hope and Cape Horn as it is between London and New York.

If the Earth were round, it would positively make no difference in the effect produced by sound either at the Arctic or Antarctic regions. The facts are that the report of a pistol sounds like a cannon at the Antarctic circle, and the falling of an iceberg produces the most terrible crash that man ever heard. This is not so in Northern regions. Capt. Hall says the report of a gun could scarcely be heard 20 feet away. Capt. Willis says of his trip around the Antarctic circle, that it is impossible to see with the naked eye more than 40 miles. Arctic explorers claim to be able to see with the naked eye from 150 to 200 miles. In Harper's Weekly for Oct. 20th, 1894, is an account of a government expedition, members of the Signal Corps, United States Army, who flashed a message by heliograph (or highly polished mirrors) between Mount Uncompahgre, Colorado (elevation 14,418 feet), to Mount Ellen, Utah (11,410 feet), a distance of 183 miles. If the Earth was round, this would have been an impossibility, as the natural curvature of the Earth would at 183 miles have caused the center point of that distance to be 22,326 feet higher than either base, causing an intervening space of over five miles of solid ground. If the Earth is round, the natural curvature would make it impossible for a person to see land from a vessel in the middle of the English channel, yet both lighthouses (one on the French and the other on the English coast), can be seen on a clear night from the deck of such a vessel. If the Earth is round, it would look convex to a person in a balloon. The opposite is the fact, to a man in a balloon the Earth looks concave, like a huge bowl.

THE EARTH DOES NOT MOVE. Nowhere in the Scriptures is the Earth spoken of as movable. On the other hand the Sun is not spoken of as standing still except in one instance, where God performed a miracle for Joshua. The concentric and progressive motion of the Sun over the Earth is in every sense practically demonstrable. The Earth like all other planets floats in space. The Sun moves and is the center of our (known) Universe. The idea that the Earth moves on its axis at the rate of 1000 miles an hour is ridiculous and such reasoning a disgrace to philosophy and fearfully dangerous to religious interests, for in all religious (and mythological) history the Sun's motion is declared and recognized.

This Earth did once come in contact with another Planet and was split apart. Notice on the map how the Northwest coast of Africa fits into the Gulf of Mexico, and how many coast lines fit into the opposite sides. The highest parts of the Earth are along the line of the Andes Mountains in South America; the Rocky Mountains in North America and the Ural and Himalaya Mountains in Europe; look at the map of the Flat Earth and you will see they are almost in a straight line.

It was this collision with another Planet that upset the "balance" of the Earth and why the North and South lines in the Pyramids differ from the same lines in the Aztec Mounds of Mexico. The Earliest Cosmogony of the Chinese tell that the Polar Star is over the center of the Earth. All ancient Greek traditions placed their God on the NAVEL of the Earth. In the Talmud we read "that the World is like the eyeball of man and God sits in the center". The Talmud also expresses the words "before, behind, to the left and to the right."

General A. W. Greeley of North Pole fame, U. S. A., says, in concluding an article on the South Pole, in the Ladies' Home Journal for January, 1897:

"The Antarctic then is a continent land unique in the world. It is a continent where abounds no animal life, either mammal, bird, insect or reptile. In fact no living thing exists within 600 miles of its borders. It is a land devoid of all vegetation, having neither ferns, flowering shrubs nor trees. Her nature displays her forces on a scale elsewhere unknown. Over this austral continent ceaselessly continues a titanic struggle between the opposing ancient elements of fire and water. The volcanos pour forth continuous streams of lava which is welcomed by ice-capped glaciers, amid the thunders of earthquakes that shake from end to end, the continent of Antarctica." What a contrast to the North Pole?

To be looking for a South Pole is a foolish and an expensive idea. The ice barriers which encircle the known Earth at the extreme South extend in a circle for more than 60,000 miles, but show no opening large enough for a ship to pass through. The snows never melt, icicles are never seen. There is not a trace of bird, animal or vegetable life, the snow and ice reaching down to the waters edge. While the Northern explorers report the greatest degree of cold 700 miles South of the Pole. The Northern water currents are warm in Summer, icicles appear, birds are seen flying North, the snow melts, rabbits, bears and deer are seen. potatoes, turnips, cabbage, spinach and barley grow, flowers bloom, berries mature, beech, birch and willow trees are found in high Northern latitudes. Contrast this with an equal distance South of the Equator, and no living thing can be found, not even a lichen or moss. Man has never yet gone Northward of a spot where vegetation of some kind does not exist. Is the Earth globular or a flat disc in view of these facts?

IN THE DECLINING YEARS OF LIFE

The physical reactions of old age occur on the inside of the body, just as the countenance shows the marks of advancing years on the outside of the body, but the forces of dissolution may be greatly retarded, the health and vitality conserved, through attention to diet, exercise and mode of living.

The conversion of food into body substance, energy and waste is effected in the digestive organs, and in old age when the excreting organs and tissues do not respond as rapidly as in earlier life, some of the waste remains in the blood and in the tissues.

The Kidneys, Skin and Bowels cannot carry it off fast enough, so that it interferes with all the functions of the body as they act much slower in old age and cause stomach and bowel troubles, besides auto-intoxication.

For this reason corrective medicine of the greatest value which is made to fit the average case should be used, and Dr. MacDonald's ATLAS COMPOUND should always be that medicine. Physical activity is very important in the declining years, but over-exertion and fatigue is far more dangerous than in earlier life.

WHAT TO EAT—A VARIED DIET IS BEST

Food habits are responsible for the health and happiness or the contrary in many families. In planning meals, food should be divided into three groups. Regulating foods, building foods, and fuel foods. Each meal should contain some of each of these groups.

While all foods furnish us with a certain amount of fuel or calories, yet the foods which furnish little except calories are known as fuel foods and consist mainly of sugars, starches, and fats which provide us with the energy and heat necessary. The building foods, or proteins, provide for the wear and tear which daily living makes upon our tissues. These are milk, eggs, meat, fish, cheese, poultry, oysters, beans, peas, nuts, cocoa (beverage), custard, and ice-cream.

The regulating foods provide the mineral matter and vitamins which make all our body processes such as digestion, circulation of the blood, action of muscles and nerves run smoothly. These are spinach or lettuce, peas or string beans, tomatoes, turnips or carrots, cabbage or onions, and other vegetables; apples or pears, oranges or grape fruit, berries, fruit gelatin (butter, milk, and eggs). Diets are more likely to be deficient and, therefore, the one to which most thought and attention should be given.

Fuel Foods—Characterized by starch, flour of meal mixtures, bread, crackers, macaroni, rice, tapioca, cereal breakfast foods, and potatoes. Sugar, syrup, honey, candy, preserves, jelly, dried fruits sugar and frozen ices.

Most families use more building or protein foods than are necessary, as after the period of growth is past, a comparatively small amount is needed. During the period of growth, plenty of milk for the children will be the safeguard as far as building material, and as far as regulating material is concerned.

A good varied diet should be selected so that the menus are well balanced, as this will give the family the variety which is always desired and is the spice of daily food and the balance which is essential to healthy living.

EAT BAKED POTATOES WITH THE SKIN ON

As baked potatoes contain a great deal of mineral salts in the skin, they should not be peeled but eaten skin and all. They also contain protein, so that little bread is required with them.

Baked potatoes with the skin on are a muscle, body and vitality builder, as the skin contains the essential salts, the vegetable vitamin.

When baked potatoes are eaten with the skin, the body is supplied with vital starch which maintains and supplies fuel, also with alkaline salts which are so valuable in neutralizing the excess of acids generated by other foods.

Eat baked potatoes with the skin on combined with milk and butter, or cream and butter, and you have an ideal meal. Nuts may be also eaten.

HONEY

Honey is easily digested and is of great nutritive value. Sweets are very necessary to the system, and if honey and ripe fruits, that contain a great deal of sugar are eaten, nothing but good results can come from them. Honey greatly aids digestion and supplies the system with vitamins.

HEADACHES

A headache may be caused by low vitality or by anything that irritates the nerves, or causes defective circulation of the blood, or it may be due to liver disorder or kidney trouble, weak eyes, or to poisons generated in the system by eating wrong combinations of food causing improper digestion, or by too hurried eating or irregular meals.

EATING SUGGESTIONS FOR HEALTH

Foods which contain a certain percentage of fats are lubricating and laxative.

Lean meats, fish, eggs and milk are constipating and relaxing foods should be eaten with them.

Foods like corn, oats, wheat, barley, rice, rye, sugars, honey, syrup, grapes, bananas, dates, figs, raisins, peanuts, chestnuts, chocolate, pumpkins, squash, white potatoes, sweet potatoes, contain a large percentage of starch and organic salts and help the action of the bowels, as they contain laxative principles.

Potatoes should be eaten with sea foods, eggs and milk.

Fried potatoes should not be eaten with white bread.

Baked potatoes should be eaten with the skin, as they possess a vital starch as well as a great deal of mineral salts and help to neutralize the excess of acids generated by other foods.

Buttermilk is excellent in nervous disorders and helps to prevent auto-intoxication. In blood disorders, buttermilk should be used freely, as it helps in purifying the blood.

Cottage cheese has great building value and is excellent for brain and nerve workers.

WHAT THE HOROSCOPE REVEALS

When most of the planets are rising or oriental, they generally produce early marriages, while most of the planets occidental, or setting, produce late marriages.

Venus in the 7th celestial mansion of the Horoscope and well aspected, is one of the surest signs of domestic felicity, signifying an early marriage and an increase of prosperity after that event; while Venus in the 8th house will bring gain by marriage, partnership or legacy.

Venus in the 10th house is one of the best signs of general success in the life of the person in whose horoscope it appears when well aspected. The person who has this position becomes very popular, particularly with the opposite sex, and will rise in the social scale through marriage, with an ability to avoid trouble in life.

When the majority of the planets are well aspected in the Horoscope of the individual and above the Earth, or when the Sun is in good aspect to the Moon and Mars, it is generally easy for the person to obtain a situation and if the Sun is in good aspect to Jupiter it then indicates a good paying position or occupation.

When the majority of the planets are found in the Earthy signs, Taurus, Virgo and Capricorn, it indicates that the person will be favored and meet with success in agriculture, gardening, dealing in grain, land, timber, building materials, food stuffs and in everything that comes out of the Earth or off of it, to clothe, shelter and nourish the physical body.

The second, sixth, eighth and tenth houses with their lords or planetary rulers are the chief significators in the person's Horoscope and show the vocation, financial fortune, social standing, marriage and future prospects of the individual.

The planets not only govern the outward personal appearance, build, complexion, temperament and general tendencies, but there are certain distinct parts of the human system which certain planets rule, or have special government of and denote what special disease or ailment, also what particular parts of the body will be affected.

The Moon is the great time-marker of the Universe. If Saturn afflicts the Moon in a woman's horoscope it will affect her health, but the same aspects occurring in a man's horoscope will cause him trouble in married life. If the Sun is afflicted in a man's horoscope it will affect his health, but in a woman's horoscope it would indicate trouble with her husband.

The natures of the planets and what they reveal may be altered according to the aspects held in the horoscope which shows what will occur as the planets produce a certain influence on the individual's affairs, yet that influence is capable of being opposed by the exercise of the human will and may by that means be either overcome entirely or greatly mitigated.

The Sun is the centre of the Solar System, the source of vitality, and is recognized by all as the physical life-giver even when they do not believe in anything super-physical.

The Sun signifies the Lord of Light or Life, and his influence on human life, especially on persons born under his special protection, is to endow them with splendid health, vigor, courage, pride and ambition.

The angle of each planetary ray at birth determines the department or vocation of life it will affect.

Children born shortly after sunrise generally have serious trouble of one kind or another in early life, often poverty, but as the years increase are favored by better conditions.

Children born at the noon hour, when the Sun is at the Zenith, are more apt to make their life work in lines of a professional nature.

Children born in the middle of the afternoon do not in the majority have a long span of life, seldom reach a ripe old age.

Children born shortly after sunset are more apt to have sickness in their lives.

Children born at midnight, when the Sun is directly under the place of birth, are favored in old age.

Females born during the winter season from 11 to 12 o'clock in the morning, or during the spring and autumn from 10:30 to 12, and in the summer from 10 to 12 or near these hours, generally marry men above their own station in life. In employment they usually obtain active honorable positions with reliable and well established concerns.

In a male Horoscope the 1st, 3rd, 5th, 7th, 9th, and 11th houses in the Horoscope denote the left side. The 2nd, 4th, 6th, 8th, 10th and 12th houses denote the right side.

In a Female Horoscope this should be reversed. The odd numbers signifying the right side, the even numbers the left side.

The Moon in each Zodiacal sign is favorable for some things and unfavorable for others.

For buying choose a day on which the aspects to Saturn are good.

For selling do so on a day when there are good aspects to Jupiter.

For things you have to strive for, use days when there are good aspects to Mars.

For seeking promotion and to better your condition, use days when there are good aspects to the Sun.

For gaining favors in love matters, use the days on which the aspects are good to Venus.

For correspondence on business matters or publishing articles, use the days on which the aspects are good to Mercury.

For things of a domestic nature and changes, use the days when the aspects are good to the Moon.

A surgical operation should never be performed on a day when the Moon is in the sign ruling the organs or part of the body to be operated on.

If a move is to be made for permanency it should be done when the Moon is in Taurus, Leo or Aquarius. A move while the Moon is in Scorpio invites dirt and difficulty.

TO DEAL IN CATTLE

The best time to buy or deal in cattle, generally, is when the Moon is passing through the signs Taurus, Cancer, Virgo, Pisces, Sagittarius or Capricorn.

BEST TIME TO DO PRUNING

Pruning should be done in the spring when the vital currents are prolific, yet not at the stage when the ascensional life fluid is needed to promote the important action of fruitage.

If a tree or vine is pruned a few weeks before budding time the tendency of the volume of ascensional sap will favor the remaining limbs and buds to come. If the pruning is done at the time the buds begin and when the life sap is in them, it will prevent fullness of bloom and yield.

In the fall the best time to prune is soon after harvest or during the shedding process, when the season is over, then the life fluid is returning to the roots.

The condition of all crops determine the time of harvest, as the season and progress must be taken into consideration. If planting can be done on the favorable days and the crops harvested on about the same days as the planting was done, both quality and flavor will be much the better.

THINGS ARE AS WE MAKE THEM, NOTHING COMES BY CHANGE

Irrespective of what you may have heretofore believed, it is not possible for us to get something for nothing. What we get we must pay for in some way at some time. At the moment we perform an act we may not know what, or how much, or when we are to pay, but of one thing we can be certain, and that is Nature will present her bill and that she will not fail to collect it.

If we take what we want, then Nature calls and demands the pay. She watches over us at all times and deals with us fairly. She is just to one and all alike, because she herself is but the expression of a law and is therefore infallible and unchangeable and could not show preferences.

There is a straight and normal way along which each of us travel. If you search for pleasure or in an unwise way desire to accomplish a purpose, you over-exert your muscles. The result is that you pay in soreness and decreased efficiency. If you indulge in an excess of food or drink, the next morning you find that you are paying for the gratification of the desire. Your forces are below par and you are less efficient.

Take a few hours from your sleep tonight, but tomorrow you pay for it in a less clear judgment and a slower acting brain. Apply this law of compensation to any phase of business, to your daily dealings with other or to any condition of life that you may choose, and you will find that it works out just the same, for the law of compensation works both ways and works automatically.

As time changes, conditions change. No two human beings ever lived who thought the same about everything. You will not think tomorrow exactly the same as you are thinking today. But this does not mean that your ideas of today are incorrect or that those of tomorrow will be wrong. That which is a necessity today may be useless later on, for something better and more suitable may have taken its place.

Success lies ahead of us. We cannot reach it by looking backward or lamenting over the past. We are all constantly facing new situations, dealing with new conditions and solving new problems.

All things are possible. Opportunity is ever with us. Cultivate industry; do not wait for luck, but go after success in the right way and remember that time and physical endurance have limits.

Keep your physical and nerve forces up to normal. When you are ailing, TRY Atlas Compound. A Box or Two may be all you need.

For the farmer who desires to realize the most for his crop, stock investment and labor, a good Silo is really necessary on the dairy farm.

The storage of forage crops, especially corn in its nutritive and succulent values is best preserved by silo, as ensilage feeding is a saving in many ways.

It has been found that fermentation takes place as soon as the Silo is filled and packed. The contents are partially cooked by the temperature rising for a period of about two weeks to an average of 150 degrees, which converts the entire contents into wholesome, palatable and nutritious feed for the stock while it helps to increase the profits in the dairy products value in the live stock and returns for the farmer labor.

Cows fed upon silage and concentrated feed will produce much better results than those fed upon dry roughage rations supplemented with concentrated feed, besides being in better condition and worth more in a salable way. Corn silage is also a beef producer, unexcelled by any other ration and is the cheapest and most profitable ration for domestic animals.

Silage also furnishes more and better feed from the same acreage with less labor and seed required to produce it and with legume hay is certainly a dependable and excellent milk producer.

Ensilage considered from all standpoints is a most economic factor in the production of milk, butter and meat and in the keeping of all kinds of farm animals. It contains a large amount of natural water and its succulence makes it more easily digested while also serving the purpose of keeping the animal's system in a state of normal and healthy activity, free from constipation and digestive disturbances.

DAIRY COWS AND SHEEP

On many of the farms throughout the country there seems to be a growing feeling on the part of the owners and operators of the need for greater income to take care of present day conditions—living expenses, equipment and general upkeep.

While doing all the farmer can in that branch of the business—dairy farming which takes years to breed and raise a herd of good milk producers, yet with the high cost of grain and labor, there is but little profit, except by keeping only the best of producing cows and making the farm produce enough to feed them or nearly so.

In former years many sheep were raised, but of late years the average farm has raised few if any, except in the western states and on the ranges. As conditions are changing, the time is soon coming where there will be a return to the raising of at least small flocks of sheep on the average farm, as the busy working farmer will find it to be a good proposition to keep them.

Sheep need but little attention, especially throughout the summer season, and will surely return a larger percentage of income than will inferior cows kept and fed on grain that is conceded to be high in price. Sheep generally are free from disease and the meat wholesome.

There can be no question but that the hillside farms can be utilized to good advantage in growing a good herd of sheep and keeping them profitably. A flock of well bred sheep kept in a pasture properly fenced and later turned into an adjoining field of grass, then housed through the winter in quarters where they can be kept dry, free from drafts but with good ventilation and fed on clover or alfalfa hay and with small quantities of ensilage will be able to produce both good qualities in wool and mutton.

The farmer who grows sweet clover will have plenty of forage and hay. As sheep require only casual attention and are really a good investment on a dairy farm, they become an important item in making up the financial end of the farm resources.

FEEDING PUMPKINS TO COWS

No Truth in Statement That Seeds Work on Animals' Kidneys—Proved by Tests

For feeding cows, 2.5 tons of pumpkins, with seeds in, are the equal of one ton of corn ensilage. Some folks say that pumpkin seeds will cause cows to go dry, or that they will work on animals' kidneys, and hence the pumpkin seeds should not be fed. There is no truth in such statements, as has been proved by feeding tests. On the other hand, pumpkin seeds are beneficial. When fed to pigs they free the pigs of worms and put the digestive apparatus in tip-top shape. An excess of seeds causes an upset of the digestive organs for a day or so, because the seeds are very rich. There is no danger, though, if fed in the amounts in which they occur naturally. For feeding pigs pumpkins are sometimes cooked, but this extra work is not warranted.

Squashes can be fed to cows, pigs and horses the same as pumpkins. Some Colorado stockmen make a practice of fattening pigs exclusively on squashes, and get good returns per acre from the crop, but the pork has an objectionable yellow color. Horses will sometimes refuse to eat pumpkins or squashes.

Mrs. Linn Atkinson, Three Rivers, Mich., writes Sept. 1st, '24: "My husband and I are taking Atlas Compound and we both feel fine. We wonder how we ever did without it."

EAT AND GROW THIN

A fat person to loose weight should eat food that contains the least number of fat calories. A thin person to gain weight should eat food that contains the most number of fat calories.

Everyone eats many Calories.

Foods are classified as Proteins, Fats, Mineral salts and water.

The Calorie measures energy as heat, being the amount of heat required to raise one pound of water four degrees Farenheit.

1 ounce Protiens yields 113 Calories. 1 ounce Carbohydrates yields 113 Calories.

1 ounce Fat yields 225 Calories.

A man of average weight - 170 lbs., requires from 2500 to 3500 calories daily, one tenth of this amount should be Protiens, three tenths Fat, and six tenths Carbohydrates.

This shows that more carbohydrates are needed than fats and protiens together. Carbohydrates are found principally in cereals, vegetables and fruits, they supply heat and energy used in the body, and also furnish the bulk necessary to good digestion. Protiens are the most important because they repair the tissues of the body. They should be selected partly from the animal and partly from the vegetable kingdom, lean meat, milk, eggs, cheese, fish, dried peas, beens, lentils, nuts and cereals. Fats used in the body furnish heat and energy and supply fatty tissue. Fats furnish more than twice as much heat and energy as protiens or carbohydrates, butter, cream, oil fat of meat, nuts and fish. A person engaged in sedentary work requires less food than one who works hard at labor.

A woman of average weight requires less calories than that of a man, or about 1000 calories to each 100 lbs.

It is often asked how thick a woman ought to be in proportion to height, a very young girl may be thinner than a matron but the following table gives a fair indication of proper proportions.

Five feet in height about 100 lbs.				Five feet six inches 145 lbs.			
„	„	one inch	„ 107 „	„	„	seven	„ 151 „
„	„	two inches	„ 114 „	„	„	eight	„ 156 „
„	„	three	„ 120 „	„	„	nine	„ 165 „
„	„	four	„ 131 „	„	„	ten	„ 170 „
„	„	five	„ 140 „	„	„	eleven	„ 178 „

Six feet in height about 185 lbs.

Children more active than adults in proportion to their weight require more food than adults.

Aged, inactive persons require less food than anyone else. A tall thin person requires more food than a short fat person with equal weight.

Food bears the same relation to the body that fuel does to the locomotive. Without proper fuel the locomotive lessens its progress and comes finally to a standstill. The same is true of the body, unless proper food is supplied the bodily organs cannot perform their functions properly.

Atlas Compound aids nature in helping to digest the food we eat, there by puting it in a proper condition for assimilation, so the bodily functions can proceed in a normal way.

Try two tablets of Dr. Mac Donald's Atlas Compound after each big meal. (Be sure and drink a large glass of water when you swallow the tablets) and notice the good results you have.

A balance meal is composed of 10 to 15 per cent Proteins, 20 to 30 percent of Fats and 60.to 65 per cent Carbohydrates.

For convenience in reference to the number of Calories in the various classes of food, we are publishing the following Dietetic Food List which shows the number of Proteins, Carbohydrats and Fat Calories in the given amount of Food.

Study this list carefully and plan your meals accordingly.

TESTIMONIALS

TRUTH
AS WE LEARN IT

Truth is a builder of confidence:
a promoter of friendliness
and of good will.

Hope, Health and Faith are all at stake when the reader and customer accepts and relies upon the claims of an advertised medicine, the success of which depends upon its merits and the truth to protect the public confidence.

WE SUGGEST TO EVERY READER, IF YOU MUST TAKE MEDICINE
TRY

DR. MAC DONALD'S ATLAS COMPOUND

From generation to generation the name and wonderful medicine Dr. Mac Donald's ATLAS COMPOUND and Mac Donald's Farmers' Almanac has been handed down.

The steady dependable service year in and year out on which the reputation of this Almanac and Atlas Compound are built and maintained is what has cemented the ties of friendship among our many thousands of regular customers to these two most excellent things and is also what steadily increases our business, as good faith is always the fundamental consideration behind it.

Every original letter from which extracts of testimonials are quoted are on our files and these letters are, we fully believe from conscientious people who have written them in the very best of faith. Out of the abundance of letters like these we can only print testimonial extracts from a few. They come to us voluntarily and we give the brief information to the public in order that it may be known what ATLAS COMPOUND has accomplished, we make no claim to the supernatural. Atlas Compound does its work and the people laud its merits.

Annie B. Houseman, Denver, Colo., writes Sept. 4-24. "I have kept Atlas Compound in the house for 15 years, I know of nothing better this side of God".

Mrs. S. S. Lemmon, Leesburg, Fla., writes Sept. 8-24. "Bronchitis Tablets No. 4 have done my cough more good than anything else".

Mrs. D. M. Frakes, Salem, Ore., writes Sept., "I have been taking Atlas Compound for some time. I used to have pain in my left side and under my shoulder blade; the pain was so severe if I was over town when it would take me, I could not walk home. Since I commenced taking Atlas Compound, I do not have the pain now only once in a great while"

DISORDERS OF THE VITAL ORGANS

Indigestion or Weak Digestion is a very common complaint, and is the direct cause of more various and distressing symptoms than any other disease known to the American people. Rheumatism, Kidney weakness, heart disease and nervous exhaustion frequently spring from stomach disorders.

The stomach is a pouch, or bag, about a foot long and five inches wide. During the process of digestion the strong muscular coat of the stomach squeezes and presses the food from end to end and back again and this churning of the food brings it constantly in contact with the dissolving fluid called Gastric Juice, which changes all solid food taken into the stomach into a liquid state, in order that the nourishment may be absorbed by the blood. If the dissolving fluid is weak or insufficient, then proper digestion does not take place and indigestion results, while if there is also pain it is called Dyspepsia.

The symptoms are belching of gas after meals, sense of fullness or distress, sour fluid rising up into the throat and mouth, fetid breath, heartburn, drowsiness, and the person may become weak, nervous and lose weight.

Disturbance of the Heart, weakness, irritation and palpitation, is a common outgrowth of indigestion and constipation. The proper action of the heart is interfered with by reason of formation of gas in the stomach which causes the walls to bulge out and the stomach to press upon the heart.

The symptoms are nervousness, palpitation or rapid beating, on the slightest exertion or excitement, with pain over the heart and which sometimes passes down the left arm. There may also be a feeling of smothering and slight dizziness at times. In these symptoms, the heart is weakened and irritated by the indigestion and fermentation of gas, while there is also generally constipation, weakness of the kidneys and inactive skin.

Kidney troubles are common and are frequently caused by irritation and congestion which produce a certain amount of soreness and the individual suffers from a generally disturbed condition of health.

The cause of kidney congestion is that the bowels have been constipated and the skin inactive which causes them to become slightly inflamed and the result is backache and other symptoms. When the kidneys are in a condition of overwork sometimes a slight cold or chill starts the Kidney Congestion.

Eczema or Salt Rheum is always blood impurity, the result of auto-intoxication or blood poisoning and there are indigestion and nervous disturbances, a semi-constipated condition and itching of the skin. In skin disease the Kidneys, bowels and skin do not sufficiently perform their work—they become sluggish and the impure blood deranges the stomach and disturbs the nervous system.

Nervous weakness is frequently due to indigestion and blood impurity resulting from constipation. Disturbances of the Nervous system are often indicated by such troubles as headache, hysteria, nervousness, hay fever, asthma and even paralysis may be due to blood poisoning, the result of insufficient nourishment and inaction of the bowels.

Headache or Neuralgia, which occurs frequently, is nature's danger signal and a reminder that something is wrong with the system. The bowels, kidneys and skin are the three blood cleansing parts of the body, and when any one of them does not function properly the blood becomes filled with impurities. The tissue waste or dead cells are being constantly renewed in the body and the impurities thrown into the blood stream to be eliminated through the skin, bowels and kidneys and when left in the blood irritate and inflame the brain and nerves.

It is admittedly certain that in Rheumatism the blood is poisoned by some substance, and to relieve this disease it is very necessary to cleanse the blood by eliminating the impurities.

The symptoms and the information given in this article leads to the logical conclusion that ATLAS COMPOUND, the most satisfactory of all known correctives should be at once employed to aid nature to bring about the proper functioning of the organs of the body.

Reasons Why ATLAS COMPOUND Should Be Considered First.

ATLAS COMPOUND acts as an exerciser to the cells of the Mucous membrane of the whole digestive tract, stimulating the cells into activity which causes an abundance of blood and nerve supply to reach the parts needing it, inducing a healthy condition in any part lacking it, and removing slime and waste material.

Within a very short time after using ATLAS COMPOUND you will notice that your digestion, assimilation and elimination will be normal and that you will enjoy a greater feeling of happiness and have more vim, strength, ambition than you have enjoyed before.

Nervous, tired-out, run-down women will notice great improvement after using ATLAS COMPOUND, while weak, delicate children will, within a reasonably short time, gain strength and show their youthful nature as healthy children should. Men who lack ambition, endurance, virility and aggressiveness become thoroughly efficient through the use of this most satisfactory corrective and reconstructive "ATLAS COMPOUND."

TRY IT FIRST WHEN YOU NEED MEDICINE.

Miss. Helen Shrock, Detroit, Mich., writes Sept. 16-24. "Atlas Compound is certainly a wonderful medicine, I have been taking it for about 10 years in all and would be without it."

Mrs. Joseph Twa, Crystal Falls, Mich., writes Sept. 22-24. "I recommend Atlas Compound to everyone who is bothered with their stomachs."

Mahy St. Louis, Central Manati, Oriente, Cuba, writes Sept. 17-24. "Have been using your Atlas Compound myself and family from time to time; have never been dissatisfied or failed to get results in using Atlas Compound."

S. P. Benton, Hot Springs, Nat-Park, Ark., writes Dec. 4-23, "I have the very best results from using your Atlas Compound."

O. E. Ellsworth, Erie, Pa., writes Nov. 18-23, "We have ordered Mac Donald's Farmers Almanac for the past five years and have found it very helpful and interesting, worth many times what it cost."

Lydia King, Persia, Tenn., writes Nov. 12-23, "I tried your Rheumatic Tablets and found it done me so much good that I am anxious for others to try it."

John J. Hill, Hugh, Ark., writes Aug. 18-24, "Your wonderful book Secrets of Astrology Revealed I like so well I would not take five times the price I gave for it."

Elmer R. Byrd, Detroit, Mich., writes Nov. 10-23, "For the last two years I have been using your Almanac and find it to be a great help to me in many ways."

Miss Hannah Robinson, Avondale, Pa., writes Feb. 14-24, "I have received the AC-SO Tablets and find them better than anything I have ever taken."

Mrs. Geo. Shults, Walton, Kans., writes July 14-23, "I have used your medicine (Atlas Compound) for a good many years and it is an excellent one."

Eva Blackburn, Bogwalk, St. Catherine, Jamaica, B.W.I., writes Nov. 15-23, "I have taken some of your wonderful medicine (Atlas Compound) and it is doing me a world of good."

Mrs. C. E. Barnard, St. Paul, Minn., writes July 10-24. "I first used it (Atlas Compound) 20 years ago and am never without it."

Mrs. Emelia Ayers, Michigan, Miss., writes Nov. 5-23, "I have used your tablets (Atlas Compound) and they have proved satisfactory all around. I am much pleased with them."

Mrs. Ida Holmes, Felton, Del., writes Jan. 31-24. "I have taken it (Atlas Compound) for indigestion and it has done me more good than anything I have taken."

Jessie Heard, Prairie, Miss., writes Jan. 29-24, "Atlas Compound did me so much good I can not praise it too highly."

Doctor , Chicago, Ill., writes Jan. 3-24. "(Name not given for professional reasons) Please mail me another box of your Tablets for the Kidneys. I am so much better at night. Kidney, Bladder and Urinary Tablets."

H. P. Walker, Mt. Olive, N.C., writes Jan. 28-24. "Your Atlas Compound has done me much good."

Mamie Brook, E. St. Louis, Ill., writes Jan. 17-24. "Your medicine (Atlas Compound) has done me much good when I used it in 1922. I feel that I owe my life to Atlas Compound."

Mrs. Lizzie Pike, Bristow, Okla., writes Nov. 25-23, "I have been taking your Atlas Compound and think it fine. I was all run down from over work and took one box. Will say it done me more good than ten dollars worth of other medicine I have taken."

FORTUNES IN A TEA CUP.

There is much pleasure in fortune telling. One method of reading fate is to be found in the tea grounds, which have served as pictures of the future for so many generations that no one knows how it started. Any one versed in the art of reading the tea cup can give a great deal of pleasure and furnish a harmless amusement with her skill. The following rules are those of a well known system of divination: If the grounds are bunched together it signifies that all will be well with the fortune-seeker, but if they are scattered it means much the reverse. A small speck near the top is a letter. A large speck is a photograph or present of some kind, what it is depending on the shape of the speck. The sticks are people—light or dark, short or tall, according to their color or length. A small one means a child; a thick one, a woman. If they lie crosswise they are enemies. If straight up, they are intimate friends or pleasant acquaintances to be made. If a large speck is near them it means they are coming for a visit, bringing a trunk or valise. If there is a bottle shape near a stick, it means a physician. If a book shape, a minister or lawyer. If many fine speck, a married man. The sticks with a bunch of grounds on their backs are bearers of bad news, or they will "say things" about you. A long line of grounds with no opening between foretells a journey by water. If openings, by rail. A large ring means an offer of marriage to an unmarried woman. To a married one, it means a fortunate undertaking. To a man, success in business. A small ring is an invitation. Dust-like grounds bunched together at the bottom or side are a sum of money. A triangle signifies good luck; so does an anchor or horseshoe. A half moon or star to married people means a paying investment. To unmarried, a new lover or sweetheart. A pyramid is extremely lucky. A square or oblong, new lands. Flowers, a present; what it is depends on the shape, or the present may be flowers. Leaves, sickness and death. Fruit, of any kind, health. A hand, warning, if the fingers are spread. If closed, an offer of friendship or marriage. A cross signifies trouble. Any musical instrument, a wedding. Bird, suit at law. Cat, deception. Dog, faithful friend. Rabbit, luck. Horse, important news. Snake, an enemy. Turtle, long life. Horse, offer of marriage, or a removal. Flag, some surprise or a journey to another country. A heart is the most propitious sign of all, as it means happiness, fidelity, long life, health and wealth.

THE TONGUE

The tongue is a valuable indicator of the state of the blood of the eliminating organs. It also throws light on the activity of the digestive process. If the blood is impure, liver and kidneys torpid, the tongue will be heavily coated. With such a coat the doctor will give intestinal cathartics before he does anything else. A thin white or grey coat is an evidence of the functional disturbance of the digestive organs or inactivity of the circulation in the abdominal organs. It signifies that food is slow in digestion and remains unusually long in the stomach. A clean tongue in disease is apt to imply an irritable state of the nervous and circulatory systems, and would indicate soothing remedies. If the tongue is small and trembles it will require tact to pilot the patient safely through. With the broad, thick tongue there is more endurance and reserve force. In this case the liver and stomach need stimulating by treatment. In diseases of the kidneys the tongue is furred in the mornings only.

The perfectly healthy tongue is clean, moist, lies loosely in the mouth, is round at the edges, and has no prominent papillæ. The tongue may be furred from local causes, or from sympathy with the stomach, intestines, or liver. The dry tongue occurs most frequently in fever, and indicates a nervous prostration or depression. A white tongue is diagnostic simply of the feverish condition, with perhaps a sour stomach. When it is moist and yellowish-brown it shows disordered digestion. Dry and brown indicate a low state of the system, possibly typhoid. When the tongue is dry and red and smooth, look out for inflammation, gastric or intestinal. When the papillæ on the end of the tongue are raised and very red we call it strawberry tongue, and that means scarlet fever. Sharp pointed red tongue will hint of brain irritation, or inflammation, and a yellow coating indicates liver derangement. When so much can be gained from an examination of the tongue, how important it is that the youngest child should be taught to put it out so that it can be visible to the uttermost point in the throat.

INDIGESTION is America's national disease. It is responsible for more sickness in America than all other causes combined. Repeated attacks of indigestion inflame the mucous membranes lining the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. Mucus poisons the blood, starves the tissues, deranges the nervous system and weakens the vital force of every organ of the entire body, inviting disease generally. We do not need to be told how important it is that the glands of the stomach should be kept pure and clean and sweet and healthy. We do not need to be told that if this is not done, the blood becomes so impoverished that it not only fails to supply the various organs of the body with the nourishment necessary to keep them strong and healthy but that it deposits the poison it receives from decaying food in the various organs and tissues of the body.

It seems to be a known fact that more people suffer from Indigestion than from any other disorder. Of the many digestive agents known, none has so wide a scope of activity as a corrective, as has ATLAS COMPOUND. These valuable Tablets start digestion soon after entering the stomach and continue its function throughout the entire intestinal tract.

C. C. Willis, Onondaga, Mich., writes July 9-24: "Have used your Atlas Compound for the last 18 years; consider it a wonderful medicine."

Mrs. L. H. Johnson, Washington, R. I., writes Aug. 19-24: "I am still taking Atlas Compound and assure you I cannot praise it too highly."

T. R. Henninger, East Randolph, N. Y., writes Aug. 9-24: "Atlas Compound is helping me. It is the only medicine I have tried that I can find no harmful effects. I have tried most everything."

James Mackey, McKeesport, Pa., writes Aug. 29-24: "Your Kidney, Bladder and Urinary Tablets done me a whole lot of good. It is a wonderful tablet."

Will Lee, Shreveport, La., writes Aug. 11-24: "Your Healing Compound Powder is the best I know of."

Mrs. R. C. Ellis, White Plains, N. Y., writes Aug. 1st, '24: "Your Vegetable Compound Soap has cured a long standing skin disease."

WHAT DREAMS MAY COME

There are four kinds of dreams. The first, between sleeping and waking, or dreams proper; the second, those which one sees concerning another, or a vision; the third, those whose interpretation is shown to the dreamer, or a revelation; the fourth, those which are related to the dreamer in a nocturnal vision. There is also a kind of combination of the above called apparition.

Those who would have true dreams must have an undisturbed mind, a sound body and an intellect not made dull by late suppers or strong drink, not sad by poverty, nor excited, angry or incited by vice.

Every dream has its signification and dreams commonly go by contraries. Dreams possess an element of warning and we are more or less informed of events which afterward happen. When the body is asleep the soul is awake and transports itself everywhere, even where the body would be unable to go.

A dream is that which shows the truth hidden under certain things. A vision is simply a thought happening while the person is half asleep and half awake. A reverie occurs when the person has been thinking steadily on a subject throughout the day and dreams of it at night. An apparition is simply a vision that occurs to the individual persons. Dreams that occur while the mind is tranquil and the stomach empty are often fulfilled.

To dream of roads indicates fortune; if clear and bright, good fortune; if dark and gloomy, evil fortune and future reverses. Rings signify marriage, money and friendship. The serpent is the emblem of falsehood and enmity and denotes enemies. It should put a person on his guard, as it forewarns him of trouble, vexation and annoyance. The coffin, the emblem of death, signifies long life and happiness; also an increase of property through industry, it also portends news from friends at a distance. The dog, the emblem of fidelity, denotes friends and jealousy.

To dream of squares indicate peace and prosperity; oblong figures, domestic troubles. Straight lines indicate peace, journeys, happiness and long life. Wavy and crooked lines indicate vexations and conveyance; if crown or triangle, it denotes unexpected fortune. To dream of a cross means the death of a friend and denotes adversity, trials and sorrow. To dream of flowers is fortunate, it indicates joy, happiness, speedy riches, a prosperous marriage and a happy life. Letters indicate news; if they are clear and easily read they indicate welcome news. To dream of trees indicates good health and a fulfillment of a person's wishes. To dream of mountains indicates friends and good fortune. Clouds signify success, the brighter they are the greater the person's happiness. To dream of the sun, moon and stars denotes happiness and good fortune high honors, change in life, respectability and industry, according to their brightness.

To dream of birds is fortunate: it signifies that the person will overcome his difficulties by perseverance. To dream of animals in general (excepting the dog) denotes misfortune, loss by theft, trouble difficulties, and that the person must use the utmost watchfulness to overcome these things. To dream of children denotes trouble in a person's love affairs; and great expenses coming unexpectedly. To dream of women denotes happiness and joy in general. To dream of men indicates visitors, presents, etc. To dream of worms or creeping things, clocks, woods, or any disagreeable thing, indicates rivals in love affairs and in business matters, hypocrisy, deceit and false friends. To dream of fish signifies news from abroad, confidence of friends, travel, money, fortunate events, improvement in the person's affairs. To dream of houses or large cities indicates a favorable change in the person's fortune, and that they must be cautious and careful in their dealings. To dream of traveling denotes embarrassment and delays.

GENERAL REMARKS ABOUT ATLAS COMPOUND

OF ALL THE DISEASES that the flesh is heir to, the great majority are caused by some disordered condition of the stomach, liver or intestines. These organs have two functions to perform. The first is that of nutrition, the process by which food is digested, properly assimilated and transformed into blood, tissue and vital energy, and this constantly supplies the waste that is always taking place in the system, as the result of what is consumed in the process of existence. When this function is impaired by any one of the diseases from which the liver, stomach or intestines suffer, the nutrition of the body is impaired, the amount of waste that is constantly going on immediately exceeds the quantity of nutritive matter that is absorbed to supply it, and consequently, the loss exceeds the supply, the body is in a condition of decline, health fails, emaciation occurs, and the system is in a condition where it readily contracts contagious diseases, and being too weak to resist, is destroyed by them. The symptoms are many and varied, depending upon the disease present, and described under their appropriate headings on other pages of this Almanac. The second function is that of excreting the unhealthy matter from the blood and expelling the undigested matter from the intestines, which are the sewers of the body and when these functions are retarded a dangerous condition is the result. The impure matter is not removed from the blood, and its retention causes such diseased condition as blood poisoning, jaundice, skin eruptions, etc. When the intestines fail to expel the undigested matter its presence keeps up a constant irritation, which may lead to fatal diseases.

ATLAS COMPOUND regulates the stomach, liver and bowels; keeps them in a healthy condition, prevents chronic and dangerous diseases and restores the organs to a healthy condition when they become diseased. When traveling they should be carried along and used whenever there is an attack or a recurrence of any symptoms or disorder named in this Almanac. It is a most economical remedy. Each tablet is an accurate dose, made separately. It is quality, rather than quantity, which should be considered by the purchaser. The ordinary dose is two or three daily, taken one after each meal or at the first appearance of any symptom of an approaching illness.

AS A SPRING MEDICINE ATLAS COMPOUND has no superior. Taken twice a day after meals it renovates the system and brings about a condition of affairs vastly to be desired. It clears the complexion, and is of great value to all persons from infancy to old age.

CONVENIENCE OF THE TABLETS.—The ATLAS COMPOUND TABLETS are a most convenient form of medicine. They require no spoon or glass, no measuring. The dose is always accurate. It is readily carried in the pocket, is convenient for travelers and is always ready at a time of need. To persons of Sedentary Habits whose mode of living causes Digestive Troubles, Constipation, Biliousness or any of the many symptoms of these troubles, ATLAS COMPOUND is indispensable. It aids the digestion, promotes the appetite, stimulates the liver, keeps the bowels open and restores all the internal organs to a natural healthy condition. Does not contain acid or irritating substances, but is made up of reliable selected remedies, carefully prepared. It cannot injure the most delicate tissue of the body and can be safely taken by a delicate child. It is the safest and surest medicine for people of feeble constitutions and is sure and effective in cases of the most robust.

THE CONSTANT AND PROLONGED USE OF ATLAS COMPOUND IS NOT IN THE LEAST INJURIOUS TO THE SYSTEM.—No one need to hesitate to take it continuously or as long as conditions require it.

There are some persons who find advantage in using the Tablets regularly year in and year out. They say that they are effective, but, as in the case of soap and water for washing the hands, help to-day does not do away with a new occasion for their use, which arises day by day on account of the faulty conditions under which we live.

THE TABLET should not be dissolved on the tongue. To so dissolve it does not decrease the beneficial effect, but the more pleasant and consequently better way, is to swallow the Tablet at once without tasting. Experience proves that the size of the Tablet is exactly that which is most easily swallowed: much more easily than a smaller substance. Many persons have no difficulty in swallowing the tablet without the aid of any fluid, but those who find this difficult are recommended to place the Tablet on the tongue and take a full swallow of water. It will always be found that the Tablet has disappeared with the water. If unable for any reason to swallow a tablet, or when it is desired to give a child a part of one, there is no objection to dissolving it in water or pulverizing and taking it in the form of a solution.

DAILY GUIDE—AUGUST

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. Excellent for business, social and health matters.
2. Unfavorable for marriage, travel, or sports.
3. Several aspects operate to-day, be cautious.
4. Correspond, travel, deal with opposite sex.
5. A good day for active and aggressive business.
6. Doubtful, tendency to produce discord, be careful.
7. Good for general affairs and ordinary activity.
8. Rather uncertain, attend usual duties.
9. Excellent for all efforts, and new experiences.
10. Attend to matters of long standing and health.
11. Ask favors, seek work, push business.
12. Benefits religious matters, friends and motoring.
13. An unimportant day; make friends.
14. Buy, speculate, travel, correspond.
15. Doubtful, avoid quick actions and decisions.
16. Good for correspondence, decisions.
17. Excellent for business, deal with opposite sex.
18. Some good, some adverse aspects operate to-day.
19. Good for business, shopping, travel or pleasure.
20. Buy, push business.
21. Attend religious and social matters, ask favors.
22. Good for personal affairs, dealing with opposite sex.
23. Doubtful, better keep quiet.
24. Benefits all kinds of business.
25. Sell, ask favors, good socially.
26. Uncertain, good for shopping and recreation.
27. Transact important business, correspond.
28. Benefits love affairs, avoid inharmony.
29. Make important engagements in afternoon.
30. Push business, seek favors, make appointments.
31. Fairly good for ordinary pursuits.

ZODICAL TENDENCIES

LEO PEOPLE

Born from July 22 to Aug. 21, any year

General characteristics. Leo is a fixed, barren, masculine, positive, fiery sign. Expresses will power, purpose. Rules heart, blood, nerves, prosperity, losses and pleasure.

The man born in this sign is active in mind, good-natured, generous, ambitious, independent, determined, honest, outspoken and very conscientious; quickly angered but quickly appeased; has many friends, is a natural leader and good story-teller. He is haughty, mischievous, impetuous, domineering, generally well built and pleasing in appearance, acts from the heart rather than the head; inclined to jump to conclusions. He usually is successful in business ventures; often attains popularity when holding positions of authority, unselfish in money matters, but saving, seldom refuses favors, but expects to have his own way in matters of opinion. He has considerable mechanical skill, never spares himself when interested in his work; is better adapted to mental activity and positions of power and authority than to manual labor; has good judgment, generally a long life and becomes more fortunate as he grows older.

The woman born in this sign is apt to be quiet, most intensely loving and sympathetic to her husband and children, with good will for all, a model housekeeper and fine cook. She is genuinely hospitable, but the friend or relative who injudiciously trespasses on her domains or maternal rights is no longer a welcome visitor; is well thought of by her neighbors, but will fight for her children on the slightest provocation. She is generally very attractive, courageous and virtuous, has a well-pleasing manner in speech and action, but is sometimes misunderstood and not appreciated. When faith or love is lacking there will be no harmony in the home, and nervous irritability and indifference will result. This sometimes causes separation, divorce, or unfaithfulness on the part of lover or husband. She lives to a good old age, has but few children and not much sickness. She will find her best mate in Aries and Leo born man. The man mates well with the woman born in Aries or Sagittarius.

Gems are Ruby and Diamond, and the colors, red and green.

APOPLEXY

Many men and women as they advance in life take on fat and are liable to have apoplexy, paralysis or pneumonia. Apoplexy usually starts in the region of the liver and is caused by a wrong diet. There may be dizziness felt for weeks or even months, unsteadiness in standing or a swimming feeling in the head which may indicate approaching apoplexy.

As poisons and lack of nutrition are alone the cause of bodily sluggishness, congestion of the stomach and liver must be prevented. You must cleanse the liver and intestines of poisons.

Dr. Mac Donald's Atlas Compound is made to fit the average case and is the one remedy which should always be kept on hand and taken when there is any feeling of distress, as the liver will not work when the stomach is overloaded with foods too heavy to be easily acted upon or when it is immersed in poisons. What goes into the stomach will in time affect the body, as congestion in the stomach and lowered vitality cause various derangements and diseases.

WEATHER FORECAST FOR SEPTEMBER, 1925

1st to 4th—FAIR PERIOD. Bright and clear weather at all points in Western and Central sections. Partly cloudy and threatening conditions in Texas and along the Gulf coast.

5th to 8th—COOL PERIOD. Raw winds from the Northwest. Dust storms in Kansas, Nebraska and both Dakotas. Cooler in the Lake region and New England.

9th to 13th—RAIN PERIOD. Severe local storms in the states bordering on the Gulf and South Atlantic plain. Lightning and heavy rainfall over northern Texas and Oklahoma.

14th to 18th—STORM PERIOD. Showers over states of the North Pacific slope and upper Rocky mountain highlands. Generally backward weather at many points South and East.

19th to 23d—WARM WAVE. Unusual heat for September over widely extended areas in Northern, Western and Central sections. Drought in Michigan and Wisconsin.

24th to 27th—CLOUDY PERIOD. Dull, cloudy and threatening conditions in the Central, Middle Atlantic and New England states. Rain in Georgia, Florida and Alabama.

28th to 30th—COLD PERIOD. Killing frosts at most points as far south as the 40th parallel. Temperature 28° at Omaha, 30° at Kansas City and 32° at St. Louis.

HINTS TO FARMERS FOR SEPTEMBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Harvesting should now be about over, except for fruits, etc. Hand-hoe root crops, get cabbage in and potatoes dug this month. Insure all farm buildings and crops.

SEPTEMBER'S SYMPTOMS.—September is the "Fever Month." You may have passed through the Winter, Spring and Summer without trouble, but look out for September's Symptoms. That languid feeling, you feel miserable. Your bowels are not right, your flesh feels hot, skin is dry and tongue is coated. These symptoms must not be ignored, unless attended to at once you will be laid up for weeks, if not forever.

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. Good for domestic affairs, associations with opposite sex.
2. An active day, avoid arguments and accidents.
3. Adverse, guard against harshness or exaggeration.
4. Favors business affairs within reason.
5. Travel, ask favors, seek work.
6. Good
7. A day for rest, study
8. Rather doubtful. Sell only.
9. Push business, look after health.
10. Doubtful, attend religious affairs, cautious in motoring.
11. Uncertain, morning for business, afternoon favorable for new ventures, getting things started.
12. Good socially, deal with opposite sex.
13. To unimportant duties, be cheerful.
14. Deal with merchants, avoid accidents.
15. Favorable for active and aggressive business.
16. Good for ordinary activity, ask favors.
17. Doubtful, be careful in deals.
18. Good for business, social affairs and amusements.
19. Fairly good,
20. Best for domestic and love affairs.
21. A good day for all purposes.
22. Good for important business, travel, friendships.
23. Excellent for religious affairs, visits, motoring.
24. Uncertain, attend regular duties.
25. Good for general affairs and marriage.
26. Push business, but avoid opposite sex.
27. Doubtful, do not dispute or quarrel.
28. A good day, but be careful in business.
29. Excellent for all efforts; avoid overdoing.

ZODICAL TENDENCIES

VIRGO PEOPLE

Born from Aug. 22 to Sept. 21, any year

General characteristics. Virgo is a barren, human, mutable, feminine, negative, maternal, earthly sign. Expresses emotion, flexibility, restlessness. Rules bowels, love, courtship and marriage.

The man born in this sign is a modest, thoughtful, serious and industrious person; very active, seldom contented for long; has good endurance and does not show his age; he is quick-tempered, not easily discouraged, usually acts with forethought; is not able to easily save money; practical, nervous, prudent, subtle, sometimes carping criticism of every body and everything; able to carry on great enterprises where he has practical experience to copy from. He always carries through anything he undertakes, never submits to defeat; generally marries a good woman who is a credit to him; his home life becomes more pleasant and attractive as he grows older, has a long life and generally healthy, usually attains wealth.

The woman born in this sign is very industrious, a fine housekeeper and likes to have her home and personal belongings tasty and elegant, usually prefers to entertain her friends rather than to be entertained. She is very sensitive and when things go wrong, either gives vent to her ill-humor in bitter, sarcastic speeches or lapses into moody silence. She is usually good-humored, and her fault-finding is of critical, corrective kind, without a trace of ill feeling. If her personal freedom is not interfered with, she is very kind and obliging. She is excitable, timid, restless and needs responsibility of one kind or another to satisfy her restless, mental and bodily activity. The intellect is keen and the qualifications of a high order, virtuous, capable and efficient. In love affairs, she is fickle and capricious, has a strong maternal instinct and is a most devoted mother, will have but few children, has great vitality, seldom sick, retains her youthful appearance and lives to a good age, generally marries rich or comes into an inheritance.

Congenial friends and associates are found in Libra and Sagittarius, but the best mate is to be found in your own sign, analytical and critical like yourself.

Gems, Sapphire, Cornelian, Hyacinth, Colors, Amber, Gold, Black.

THE STOMACH

The most important organ of the whole body, so far as it effects the health and the enjoyment of life are concerned, is the stomach. It, more than any other organ, must supply the new material from what we eat, to build up the tissue of our bodies as they wear out and are cast aside. It is most important then that the stomach and blood be kept in good condition. One of our wealthiest men, who is the victim of a bad stomach, recently offered a million of dollars for a sound stomach. Dyspeptics are of all men, most miserable, and yet it is true that a little aid given at the right time and in the right way, keeps the stomach healthy and able to do its work perfectly.

ATLAS COMPOUND will keep the Stomach in good condition.

ATLAS COMPOUND IS SOLD BY ALL DRUGGISTS

WEATHER FORECAST FOR OCTOBER, 1925

1st to 4th—PLEASANT PERIOD. Fine fresh Autumn weather in the Southern and South Atlantic states. Dry and murky conditions over the Northwest and region of the Great Lakes.

5th to 8th—RAIN PERIOD. Showery weather from Gulf coast northward over Appalachian mountain region. Heavy fog over Great Lakes, with stormy weather in New England.

9th to 12th—WARM WAVE. Bright days and clear nights generally prevalent. Summerlike warmth in the Northwest. Variable conditions in the South and East.

13th to 18th—CLOUDY PERIOD. Cloudy, threatening and generally dull weather at all points in the West, South and East. Local rains in the Lake region and St. Lawrence valley.

19th to 24th—COOL PERIOD. Rather cool spell for the season, with frost and freezing weather as far south as Kansas, Missouri, Kentucky and both Virginias.

25th to 28th—COLD WAVE. Decidedly colder weather in the Northwestern, Central and Middle Atlantic states. Killing frosts as far south as Alabama, Tennessee and Georgia.

29th to 31st—UNSETTLED PERIOD. Threatening conditions in the West and Southwest sections. Cloudy, foggy and rainy weather over Southern, Gulf and South Atlantic states.

HINTS TO FARMERS FOR OCTOBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Seed down permanent pastures, finish all harvesting. Look to the poultry, have everything in snug shape for Winter. Make mushroom beds.

OCTOBER'S DISEASES.—This month is generally healthy, fewer people die this time of the year than any other. The principal disorders are with the Kidneys and Mucous Secretions. Catarrh of the head prevails as well as all pus-forming and discharging afflictions. Those low in Vitality suffer most.

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. Morning good for business, afternoon unimportant.
2. Uncertain, keep quiet, + + + X
3. Rather uncertain, tends to excitement.
4. Tends to excitement, use caution in health and safety.
5. Good for love and social affairs.
6. Push all business affairs to-day.
7. Use gentleness in dealing with opposite sex.
8. Good only for routine duties; retire early.
9. Accomplish all you can to-day.
10. Uncertain, do not act on important matters.
11. Good for slow, patient affairs.
12. Morning hours good, afternoon doubtful.
13. Fairly good for general activities.
14. Doubtful,
15. Uncertain do only what is necessary.
16. Fairly good for ordinary pursuits.
17. Benefits matters of business, pleasure and social affairs.
18. Deal with opposite sex,
19. Attend religious and social affairs; avoid contentions.
20. A quiet day, attend usual duties.
21. Seek work, ask favors, be patient and cheerful.
22. Buy, sell, correspond, travel.
23. Good for pleasures, association with opposite sex and domestic affairs.
24. Several aspects operate to-day, be careful.
25. Favorable for important changes or decisions.
26. Good for pleasure, writing, study, or travel.
27. Uncertain, tendency to miscalculation.
28. Good for constructive and profitable affairs.
29. Make important engagements in the morning.
30. Use caution in all things, health and safety.
31. Fairly good for general affairs, especially domestic.

Born from Sept. 23 to Oct. 22, any year

General characteristics. Libra is a cardinal, equinoctial, masculine, positive, generative, airy sign. Expresses intellect, ambition, ideality, balance. Rules loins, kidneys, wealth and prosperity. This sign gives marked mechanical ability over all the others.

The man born in this sign has respect for law, clever in judgment, shrewd, secretive, skeptical, but enterprising; restless, fond of luxuries and travel; acts on first impulse, is hopeful, sometimes very inconstant, mercenary and passionate, or just the opposite. His greatest fault is the tendency to be swayed by others, and to exaggerate from over-enthusiasm. He is either a natural-born speculator, merchant or professional man; usually very fortunate. When overtaken by disaster, he recovers quickly and goes to work again with redoubled vigor. Sometimes from his love of excitement, degenerates into a gambler. He usually is gifted with good foresight and economic caution, has many friends and is loved by his wife and family, though he causes them much worry and anxiety at times. He is considerate toward his enemies, is never discouraged, seldom angered, but when he is, leaves nothing unsaid; generous with advice, fond of music and harmony, would make a fine mechanic.

The woman born in this sign is quite different from the man, being retiring, gentle, anxious, kind, merciful and having strong intuition. She is most devoted to friends, family and relatives; is extremely sensitive to inharmonious surroundings and does not like to be dominated by those who demand reasons for everything, easily confused and confounded by the arguments of others and often seems more unreasonable and inconsistent than she really is; as long as she follows her own intuitions she will rarely be deceived. She is fond of amusements, social gaiety and very popular with the opposite sex. She has artistic tastes, makes an excellent teacher of music or mathematics and likes original and practical things. She dislikes hard, dirty, or routine work, generally marries while young and often more than once. Usually gets a good husband, lives to good age, and dies a wealthy widow.

The great danger of both men and women born in the Libra sign is excess activity, worry and impatience which causes nervous breakdowns and a peculiar intestinal indigestion. These people are fond of the occult and mysterious and often possess the quality of seership. The best partners are to be found in Aquarius, Virgo and your own sign.

Gems are Diamond, Opal and the colors crimson, black and light blue.

WHAT CLOVER DOES

Clover has a direct tendency to enrich and increase the fertility of the soil and at the same time to keep down weed growth. It should be sown early in summer. Clover sod when plowed under is equivalent to a liberal spreading of manure.

Clover and grass seed may be sown on fields that are not productive after fertilizing and preparing the land for it with good results. Clover also increases the milk production of cows.

WEATHER FORECAST FOR NOVEMBER, 1925

1st to 3d—UNSETTLED PERIOD. General rain or snow in the states bordering on the Great Lakes and New England. Stormy conditions from Louisiana eastward to the Carolinas.

4th to 8th—MILD PERIOD. Genial mild weather common to most sections with tendencies to Indian Summer from the Rocky mountains eastward to Pennsylvania, New York and New England.

9th to 12th—COLD PERIOD. Sudden fall of temperature over the Rocky mountains, the Northwest and the region of the Great Lakes. Stormy weather in the Southern and Eastern states.

13th to 17th—STORM PERIOD. Cold winds and snow flurries in states of the West and Northwest. Unsettled and cloudy conditions at most points east of the Mississippi river.

18th to 21st—COLD WAVE. Low temperature for this season of the year. Snow squalls in Western, Central and Eastern sections. Clear and pleasant along the Gulf and South Atlantic coast.

22d to 25th—FAIR PERIOD. Fine, genial weather in all sections. Clear nights and pleasant days in the Western, Southern and Eastern portions of the country.

26th to 30th—UNSETTLED PERIOD. Unusually high November winds, with dashes of sleet and rain over the Western and Central sections. Showery conditions along the Gulf coast.

HINTS TO FARMERS FOR NOVEMBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Threshing is now in order. Earth up celery. Cut fuel. Gather leaves. Subscribe for farm papers, books, etc. Get everything in shape for Winter.

NOVEMBER'S DISEASES. — This is the month for Catarrh. People are careless, catch cold, neglect it and the result is Catarrh. This disease not only affects the head, nose and throat, but works its way down into the bronchial tubes, the lungs, stomach, kidneys and bladder, causing all manner of complications. Diseases contracted this month hang on all winter, and in most of these cases when Spring awakens the patient is still sleeping "under the willows."

DAILY GUIDE—NOVEMBER

On all good business days, a person can ask favors and be aggressive in all various affairs. Will power and fixed purpose for good modifies the influence of evil days, but it is best to be cautious in undertaking any important matter.

1. Good for business, travel, writing or pleasure.
2. Seek business, and employment, travel.
3. Tendency to miscalculation, avoid speculative matters.
4. Ask favors, deal with opposite sex.
5. Good for business pursuits, cautious in motoring.
6. Speculate, ask favors, seek work.
7. Good for marriage if born on this date.
8. Generally good for usual duties and correspondence.
9. Uncertain, good if born on this date.
10. Seek work, deal with opposite sex.
11. Good for shopping, domestic affairs and pleasure.
12. Favorable generally.
13. Good for business, correspondence and amusements.
14. Avoid risky business deals and accidents.
15. Good for routine duties and domestic affairs.
16. Start new business, attend to important affairs.
17. Start new business, attend to important matters.
18. Good for necessary matters, recreation
19. Look after property matters and affairs of long standing.
20. Good to do business, travel and deal with opposite sex.
21. A good day to buy, speculate and push business.
22. Make haste slowly, be careful if motoring.
23. Push business, but do not speculate.
24. Favorable for correspondence; seek work and favors.
25. Good for dealing with people generally.
26. Considered doubtful, several aspects operate to-day.
27. Sell, attend to routine duties.
28. Be very careful, better be quiet.
29. Fairly good for all ordinary pursuits.
30. Good for recreation, pleasure, new acquaintances.

ZODICAL TENDENCIES

SCORPIO PEOPLE

Born from Oct. 23 to Nov. 21, any year

General characteristics. Scorpio is a fixed, fruitful, feminine, negative, reproductive, watery sign. Expresses will, power, purpose. Rules secrets, muscular system, males and marriage.

The man born in this sign is secretive, cunning, determined, critical, suspicious, the character is strong and decided, no half-way measures about him; likes luxuries, but economical and calculating, fond of travel, especially on water; often causes great distress among family and friends by his uncompromising and exacting traits. He has great skill with the hands; attends to his own business, but in matters of duty makes trouble for others. Is capable of much success through bold enterprise, persistent and stubborn in carrying out an undertaking. He is of a jealous nature which often causes him much trouble, is friendly for his own interests and is apt to meet with serious reverses. He has much mechanical ability and in politics and law is aggressive; possesses much energy in productive methods.

The woman born in this sign is attractive, intuitive, an excellent entertainer, but not always the most agreeable companion; difficult to understand, conceals her real feelings, is courteous and affable, a good housekeeper, but dislikes menial work. She is capable and efficient when she has clearly defined duties and wonderfully tenacious and persistent when she does take up any line of work and can adapt herself to almost anything. She rules through fear and her reprovals are of a cold, contemptuous manner, effectual but not lasting. She is proud, reserved, thoughtful, saving, fond of luxury, very passionate in love affairs, likes flattery, but should beware of it except from her husband; inclined to be hard-hearted and unfeeling, yet the nature is nervous and sympathetic, can be led but not driven. She makes a good mother, has several children and is industrious, generally respected, marries more than once, angers her husband at times, has more happiness in the latter years of life and generally dies well off.

These people have determined traits of character, either good or evil, which makes them very much liked or disliked, as the case may be.

The man will find his best mate perhaps in the woman born in Cancer or Pisces. The woman will mate well with the man born in Virgo, Libra, or her own sign.

Gems, Opal, Topaz, White stones, and colors scarlet, golden brown, black.

In late Autumn and early Winter intestinal disorders, mucous secretions, gas and fermentation in the food tract with coated tongue and lack of vital force take place in thousands of people. During this period an effective tonic remedy is always very important - one that acts with certainty - that remedy is ATLAS COMPOUND, and is sold at your Drug Store at 60 cents a box, if your Druggist does not have ATLAS COMPOUND in stock, send us his name and address also 60 cents in stamps or coin and we will send you one box, all charges Prepaid.

WEATHER FORECAST FOR DECEMBER, 1925

1st and 2d—SNOW PERIOD. Heavy snow storms in the Rocky mountain region and in the states of the North-west. General rains in Mississippi, Alabama, Tennessee and Georgia.
3d to 7th—COLD WAVE. Severe cold wave sweeping across the Rocky mountain highland and spreading over the Northwest, the region of the Great Lakes and New England states.
8th to 12th—FAIR PERIOD. Mild open weather prevailing over the Southern and Southwest sections. Frosty nights and mornings in the Central and Eastern portions.
13th to 17th—COLD PERIOD. Cold and stormy weather in the Southern and Eastern sections. Blustery, with snow squalls in New York and New England.
18th to 21st—STORM PERIOD. Destructive gales over states of the upper Mississippi and Ohio river valleys. Rain in West Virginia, Maryland and Pennsylvania.
22d to 26th—COLD PERIOD. Widely extended cold wave for states in the West and Northwest, with freezing weather as far south as northern Louisiana and Florida.
27th to 31st—UNSETTLED PERIOD. Cloudy and threatening weather over the South and Southwest portions. Foggy conditions in the Lake region and New England states.

HINTS TO FARMERS FOR DECEMBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

This is the month to get into the woods, cut timber and fuel for summer. Read, think, visit friends, plan for the coming year. This is the one month of the year that farmers can enjoy themselves.

DECEMBER'S DECIMATION.—In no month of the year as it more important to look after the Health than in December. The Holidays are coming on and people forget their ailments. The main requirement to health this month is perfect digestion and free circulation of the blood.

SEND 20 CTS. FOR MAC DONALD'S FARMER'S ALMANAC FOR 1926. NOW READY.

Physical Troubles and Distressing Symptoms

DISORDERED STOMACH-is due to the use of improper food, over-eating, irregular hours, or over-indulgence in stimulents. The symptoms are nausea, head-ache, dizziness, coated tongue, or foul breath and constipation or diarrhoea may be present.

DISTRESS AFTER EATING-may be due to eating too large quantities, of food at a time or eating too rapidly. It also may be due to chronic stomach trouble.

DIZZINESS OR VERTIGO-may be frequently caused by some derangement of the stomach and sometimes results in fainting and unconsciousness.

INDIGESTION-is a failure of the stomach to properly handle the digestion of food and is the cause of more misery and distress than any other disease. It manifests itself in many and varied symptoms and all grades of severity from a condition where only certain articles eaten cause distress, to a condition where the simplest food may cause intense agony and is rejected by the stomach. If not relieved and corrected, may undermine the constitution and weaken both the will and nervous power. It may also cause ematiation, loss of weight, nausea, sometimes vomiting, distress after taking food, constipation, loss of appetite, dizziness and flatulence. Painful Digestion is a very distressing condition. It may come on immediately after eating the meal but often two, three or four hours after, and there may be much gastric distress.

DYSPEPSIA-is so common that it has come to be known as an American disease. It is the cause of more distressing and varied symptoms than probably any other. There is usually distress after eating, sometimes nausea, loss of appetite, headache, pain in the side, flatulence, constipation, palpitation of the heart, sometimes erroneously supposed to be heart-disease. These troubles may induce mental depression and general bad health. A miserable existence is generally a result of ordinary dyspepsia that has been neglected and where remedies have failed to correct it.

CONSTIPATION-is generally known as a failure of the intestines to perform properly their function and expel partly the undigested or refuse matter from the bowels and in sufficient quantity. In acute constipation there may be no movement of the bowels for several days and which may be followed by a period of time when there is a natural movement once daily and then return to the usual distressing symptoms. This may result in chronic constipation when the bowels only operate once in two, three or four days. Constipation usually accompanies nearly all diseases of the stomach, liver and bowels and skin affections. It may be the exciting cause of headache, colic, abdominal pain and other chronic derangements of the internal organs.

BILIOUSNESS-is caused by inaction of the liver and generally accompanied by constipation. When the bowels do not have a natural daily movement, the liver may become engorged, congested and inflamed and the bile, instead of properly excreted by the intestines is taken up by the blood. As a result of such a condition, the organs may suffer from acute inflammation and there may be a griping pain in the abdomen, headaches, and dizziness and suffering from what is known as a bilious attack. These attacks may become a frequent occurrence and finally result in a condition where the skin becomes sallow, yellowish, rough and itchy. There may be a continual headache, a constipated condition of the bowels, coated tongue, a sharp pain in the side, and a feeling that the whole system is out of order.

BLOTCHES-on the face may be caused by impurities of the blood, torpid liver and improper food and are generally present in the advanced stages where symptoms manifest themselves.

BAD TASTE IN THE MOUTH-may be due either to over-eating, dyspepsia, or some derangement of the liver. It is usually worse and is most noticed in the morning, the tongue may be coated and the breath offensive.

FOUL BREATH-is generally due to a disordered stomach, constipation or catarrh and may be frequently complicated with a coated tongue.

**WHEN YOUR SYSTEM IS OUT OF ORDER
ALWAYS THINK OF ATLAS COMPOUND.**

DR. MAC DONALD'S HEALING COMPOUND

**HEALS ANY SORE ON MAN OR BEAST.
ANTISEPTIC MARVEL IN HEALING.**

**For Cuts, Burns, Scalds, Bruises, Ulcers, Scratches,
Itch, Sore Throat, Sore Eyes and Sores of all kinds.**

**For Eczema, Eruptions, Sun Burn, Ivy Poison,
Boils, Felons, Carbuncles, Ringworm, Barbers Itch,
Bites and Stings of every description. Stops Bleeding.**

IT STOPS PAIN AND ITCHING.

It is a Good Antiseptic Surgical Dressing especially in those Dangerous Lacerated Wounds where dirt, oil or poisonous substances have entered and Blood Poisoning is feared. It is Clean, Odorless, Wonderfully Healing and easy to wash off. It is the best Foot Ease on Earth, for sore, blistered, tired or aching feet, use by dusting in the shoes.

It is simple to use, being in a Fine Powder contained in a Perforated Box and is Simply Dusted on the wound, cut or sore. It can also be made into a Salve by taking a teaspoonful of the Powder and mixing with a tablespoonful of vaseline or pure lard. As a Wash for Old Sores, a Gargle for Sore Throat, for Bites, Stings, Scratches or as an Injection for Leucorrhœa etc., use an even teaspoonful to a cup of warm water, stirring until dissolved. For Sore Eyes use as much as you can hold on a dime to a large glass of water. For Burns, Scalds, Cuts and all Open Wounds dust on a little of the Healing Powder, if very bad make a Salve and apply on a linen cloth. Always use the Healing Powder dry if possible, simply dusting a little on the wound.

PRICE 50 CENTS A BOX.

SENT POSTPAID, IF YOUR DRUGGIST DOES NOT HAVE IT.

THE ACTION OF ATLAS COMPOUND.

ATLAS COMPOUND acts locally on the lining membranes of the stomach and intestines, loosens the mucus and slime formation and corrects fermentation, thus cleansing the walls and leaving them in an absorbative condition, promoting the secretion of nature's digestive fluids. Where there is a disturbance of the stomach and intestines of long standing, it may not be corrected in a short time, but ATLAS COMPOUND aids nature to remove the cause and correct the trouble. Several months may be required in some cases, but it is better to take small doses for a long time than larger doses. To eradicate disease, purify the blood and tone up the system is what ATLAS COMPOUND does if given time.

ATLAS COMPOUND NOT A CATHARTIC.

Take ATLAS COMPOUND three times daily with an abiding faith that it may make you well and follow the directions in a general way. ATLAS COMPOUND is not a cathartic, but if too large a dose is taken and bowels move too freely it indicates that the medicine is taking hold and removing the slime and mucous from the stomach and intestines too fast. This poisonous slime cannot be absorbed into the system without very detrimental effects and must pass off through the bowels. ATLAS COMPOUND leaves no harmful effects. It does not contain acids, potash, mercury, opiates or poison of any kind.

During normal conditions of health and regular morning habit, the poisonous substances undergo chemical changes and are finally carried off through the skin and bowels. But in many people the natural and proper elimination does not take place and this failure causes various disturbances, such as imperfect digestion in the stomach or bowels, constipation and inactivity of the liver or spleen and certain nervous disturbances which lead to the existence of Rheumatic Conditions.

ATLAS COMPOUND AS A CORRECTIVE AND ALTERATIVE.

The Blood is Life and ATLAS COMPOUND aids nature to carry off the waste material in the body and remove from the blood and system all impurities. When the slime and mucous are removed from the stomach and intestines, the food will be digested and properly assimilated, the nerves become strong and active and the physical balance restored and the vigor of health and strength what nature intended and what you desire.

Keep physically fit for work if you want to succeed. Good blood, strong nerves and elastic muscles are the secret of old age because they regulate and control every part of the body. When the life blood is polluted or poisoned with fermented matter or corruption it loses its nutritive health sustaining powers.

ATLAS COMPOUND is an excellent blood purifier, is safe, reliable and effective. It does not shock the nerves. It gently and thoroughly cleanses the blood of all impurities and stimulates the debilitated organs, acting as a corrective in all depleted conditions. It acts by increasing the appetite and the digestion becomes normal. It often acts like magic, children require very small doses mixed with fruit, sauce or scraped apple. Sick, puny children as well as elderly people become fat as the result of taking ATLAS COMPOUND.

REMEMBER THIS.

Nervousness in many people is due to poor digestion and constipation. Repose and relaxation at meals, clear conscience and avoid worry, black coffee and indulgence in delicacies and pastries are to be remembered. Be cheerful at all times and especially so during meals. There are certain disturbances of the human organs which irritate and torture men and women, which sometimes estrange them from friends in a social way and Indigestion and Dyspepsia is such an affliction. This often may cause a grouch, yet the heart may love humanity. There are many kinds of Dyspepsia but they all produce the same effect, and the greatest of all correctives is ATLAS COMPOUND.

Sept 13 Received of Arthur to date #10-22

MAC DONALD'S VEGETABLE COMPOUND

A MARVEL IN SOAP FOR TREATING SKIN DISORDERS

VEGETABLE COMPOUND is a scientific combination of antiseptic substances. It is a sure Preventative of all Skin Disorders. It is endorsed by ladies and gentlemen of refinement wherever used.

VEGETABLE COMPOUND is made from pure Cocoanut Oil, Extract of Soap Bark and Oil of Eucalyptus, combined with medical properties for all skin eruptions, pimples, red, rough and oily skin, dry and falling hair, itching scalp and all baby blemishes. It is the best Baby Soap made.

VEGETABLE COMPOUND contains no animal oil, no diseased fat, no rancid grease, or dangerous alkalies to poison the blood or injure the skin. It gives a rich creamy lather with an invigorating feeling and refreshing odor. No other soap ever compounded can be compared with it.

VEGETABLE COMPOUND is recommended by leading physicians and surgeons everywhere, not only as a Toilet Soap, but for bath and nursery. It is an antiseptic against contagious diseases and used to disinfect the hands and for cleaning cuts and sores.

VEGETABLE COMPOUND is recommended for pimples, blackheads, wrinkles, undue redness of face and nose, and other complexion defects. It imparts, to the skin that charming freshness and velvety smoothness so greatly desired. Its beneficial qualities to ladies and infants are marvelous, being endorsed by the leading physicians and surgeons as a soap which rapidly allays all irritations of the skin.

AS A TOILET SOAP for the Complexion, it is unequalled. It stimulates the skin and prevents secretions such as Blackheads and Pimples. It heals Chapped, Rough and Red Hands. Removes Tan, heals Sunburn and Chafing.

FOR THE BATH it has no equal. It is soothing and refreshing and leaves the skin soft and velvety. It not only cleanses the body, but it removes all eruptions and will banish Eczema, Salt Rheum, Hives, Herpes, Tetters and Ivy Poison.

FOR THE SCALP and for strengthening the hair by removing the germs that destroy it, the Compound has no equal. It is a sure preventative against parasites and microbes that effect unclean hair brushes and combs. It removes crust, scale, dandruff and scurvy. For Shampooing it cannot be surpassed.

FOR THE NURSERY it allays all itching, inflammation, rash and chafing and on account of its healing and disinfecting properties, it keeps the children's skin healthy and smooth.

AS A HEALING SALVE it will be highly efficient, by making a stiff lather and applying to Chilblains, Burns, Corns, Ingrowing Nails and for Cleaning Cuts, Old Sores and Ulcers. It makes a delightful and lasting lather for shaving and on account of its Antiseptic properties, prevents Barbers' Itch, Ringworms and all Inflammations of the face.

IT IS A PERFECT SOAP. It will Remove all dirt, oil, stains, ink, grease, rust, mildew, etc., etc., not only from the hands and skin but from clothing, carpets and laces. It will also clean kid gloves, belts and leather goods. Removes grease from coat collars and stains from marble, bric-a-brac and paint.

THEATRICAL PEOPLE whose skin is put to the hardest usage, keep up their strength and freshness with MAC DONALD'S VEGETABLE COMPOUND, otherwise the wrinkles would come and their possessors would be "hors de combat", in other words "on the shelf," too old looking. When your livelihood depends on your looks you are pretty particular about your skin.

THE VALUE OF A GOOD TOILET SOAP in the promotion of health is too well understood to require discussion. During life, the skin, in virtue of its continually undergoing reproduction and decay, as well as being an outlet for certain excrementitious materials from the body, is constantly throwing off from its external layer, as effete and useless matter, minute scales. These, mingling with the oily secretions of the cutaneous glands and the saline and aqueous matter of the perspiration, acquire sufficient adhesiveness to form an extraneous layer upon the surface of the body, which, unless daily removed by washing and friction, chokes the channels of perspiration and the oily glands and materially interfere with the general functions of the skin.

PRICE 25 CENTS, OR \$2.00 A DOZEN MAILED.
\$18.00 Per Gross. Small Sample Ten Cents.

What to Do in Case of Accidents

Always send for a physician when a serious accident of any kind occurs, but treat as directed until his arrival.

FOR APOPLEXY.—Raise the head and body; for fainting lay the person flat on back; allow fresh air and sprinkle with water.

IF AN ARTERY IS CUT.—Compress it above the wound. Blood from an artery is red; that from the veins is dark.

IF CHOKED.—Get down on all fours and cough.

FOR SLIGHT BURNS.—Hold the wound in cold water a short time; if the skin is destroyed, cover with linseed oil.

SCALDS AND BURNS.—Exclude the air from the injured part, using for this purpose sheets of wadding, fine wool, carded cotton, baking soda, violet powder, magnesia or chalk and lay wet cloths over it. Olive oil and white of egg, olive or linseed oil, plain or mixed with chalk or whiting, are common remedies. The principal object is to exclude the air from the burn or scald in the quickest and least painful way.

BODY IN FLAMES.—Lay the person on the floor and throw rug, table-cover or other large cloth over him and roll him on the floor.

LIGHTNING OR SUNSTROKE.—Loosen the clothing, place the patient in shady place and apply cold water to the head. Keep the head slightly elevated.

MAD DOG OR SNAKE BITE.—Tie a cord tightly above the wound. Give brandy, whiskey or other stimulants. Suck the wound, cauterize it with caustic or white hot iron, or cut out adjoining parts with a knife. Act quickly.

CINDERS IN THE EYE.—Roll soft paper up like a lamp lighter and wet the tip to remove or use a medicine dropper to draw it out. Rub the other eye. Nothing is better than flax seed. Place a few grains in the outer corner of the eye.

DROWNING.—1. Loosen the clothing if any. 2. Empty lungs of water by laying body on its stomach and lifting it up by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently, but persistently. 5. Apply warmth and friction to extremities. 6. By holding the tongue forward, closing the nostrils and pressing the "Adams Apple" back (so as to close entrance to stomach) direct inflation can be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air and repeat the operation. 7. **DON'T GIVE UP.** People have been saved after hours of patient, vigorous effort. 8. When breathing begins, get patient into warm bed, give warm drinks, or spirits in teaspoonfuls, fresh air and quiet.

VENOMOUS INSECT STINGS, ETC.—Apply weak ammonia, oil, salt water or iodine.

FAINTING.—Place flat on back; allow fresh air, and sprinkle with water.

TESTS OF DEATH.—Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead the hole will remain, if alive it will close up.

ESCAPE FROM A BURNING BUILDING.—Crawl on the floor, the clearest air is the lowest in the room. Cover your head with a wet woollen wrap, in which holes may be cut for the eyes. Keep your wits.

SUFFOCATION FROM INHALING GAS.—Get the patient into fresh air as quick as possible, place him in a reclining position and keep him warm. Give twenty drops of ammonia in a glass of water at frequent intervals and two to four drops of nux vomica every hour or two for five or six hours.

BLEEDING FROM THE NOSE.—Place a plug of lint in the nostrils; if this fails to stop the bleeding, apply a cold lotion to the forehead; raise the head and place both arms over it so that it will rest on the hands; moisten the lint plug slightly, dip it in some powdered gum arabic and alum and place in the nose. Apply heat to the feet. In obstinate cases the sudden shock of a cold key, or cold water poured down the spine will sometimes instantly stop the bleeding.

CHOKING.—If a fishbone is lodged in the throat insert the forefinger, press on the root of the tongue, so as to induce vomiting; if this fails, swallow a large piece of crust of bread or potato; in obstinate cases take a teaspoonful of mustard in warm water, as an emetic.

WHAT ATLAS COMPOUND IS MADE OF.

ATLAS COMPOUND is a Wonderful Medicine. It is a Compound, in right proportions of well known drugs and herewith publish the Formula of ingredients and give the "Key" as published in the UNITED STATES DISPENSARY of each article used, as follows:—Extract IPECAC ROOT, From Brazil. It is a Diaphoretic and Expectorant. A Stimulant to the Stomach exciting the appetite and facilitating digestion. It loosens up slimy, catarrhal matter and in large doses causes nausea and vomiting. It is free from narcotic properties and is not a habit forming drug, especially fitted for use when no other effect than emptying the stomach is desired. It has been employed by the natives of Brazil for Stomach Troubles and has been known there since 1672. Until very lately it has always been employed as a Secret Remedy with great success in Stomach and Bowel troubles such as Indigestion, Dysentery, Diarrhoeas, etc. It has a general Stimulant effect upon the whole digestive tract. It is also used in Croup, Bronchitis and Diseases of the Gastro-Intestinal Mucus Membranes.

EXTRACT of GENTIAN ROOT. From the High Alps of Switzerland and other elevated regions of Europe. Gentian possesses in a high degree Tonic Powers. It excites the appetite and invigorates digestion. It has been known from the remotest antiquity. Many of the preparation handed down by the Greeks and Arabians contained it in their ingredients. It is used in all cases of Debility of the Digestive Organs where a General Tonic is required, such as Dyspepsia, Gout, Amenorrhoea, Hysteria, Scrofula, etc., and there is scarcely a Complaint (of Digestive Trouble) in which it can not be advantageously given under all circumstances.

ALOIN. Socotrine Aloes is produced in the Island of Socotra. This is the Original Aloes having been produced there as early as the time of Alexander the Great, over 300 years before Christ. It is now produced in Barbados, Bombay, Muscat and Zanzibar, Africa. In Arabia it is known as Jayef Gesheeshah, or Sacred Medicine. Aloin is the pure active principle of Aloes. Aloes was known to ancients as having a peculiar affinity for the large intestines and pelvic organs, not as a cathartic, but as a muscular exhalent, or evacuant. It Quickens the Circulation and produces a General Warmth to the system. A peculiarity of Aloes is that an increase, or over dose is not attended with a corresponding increase of effect. Its tendency to irritate the bowels and rectum is modified, or over come by combining it with an Alkali (such as Bi-Carbonate of Soda). It is an Excellent Remedy for Costiveness (Constipation) attended with Torpor of the Digestive Organs. It is supposed to stimulate the Hepatic Secretions and acts very happily in Jaundice even after Calomel has failed. It is useful in Ascarides (Round Stomach Worms) and Hemorrhoids. In Amenorrhoea (Suppression of the Menses) it is perhaps more frequently employed than any other remedy and enters into almost all preparations resorted to in that complaint.

SODA. Pure Bi-Carbonate of Soda is a cooling, mild alkali used medically to Neutralize the acids of the system. It is useful in Croup and to promote the Expulsion of Mucus Membranes and in Pneumonia (Catarrhal Troubles) it acts on the principle of removing the excess fibrin from the blood in inflammations.

It also lessens the sugar in the urine of Diabetic patients and modifies the action of acids in the Digestive Organs.

GINGER. This is a native plant of Hindustan and East India, also cultivated in the West Indies. The medical virtues exist in the roots. It is Agreeably Aromatic and Penetrating, Spicy and Pungent. It is a Greatful Stimulant and Carminative especially useful in Dyspepsia, Flatulent Colic and a feeble state of the alimentary canal attendant upon Atonic Gout (Rheumatism). Is it warming, Stops Fermentation in the Stomach and expells the gases.

**DR. MAC DONALD'S
ATLAS COMPOUND
MADE UNDER
SANITARY CONDITIONS**

Atlas Compound is made under the very best of sanitary conditions, Every Tablet is made, counted and put up in boxes by special machinery. In no way do the tablets come in contact with the hands throughout the entire operation.

After the tablets are made and ready, the counting machine puts them in the individual boxes and each box is then wrapped in wax paper and sealed.

Customers have the satisfaction of knowing that when they receive and open a Box of Atlas Compound, their hands are the first to touch the tablets.

DR. MAC DONALD'S DREAM BOOK

The Most Comprehensive and Scientific Dream Book published.

(NEW EDITION NOW READY.)

PRICE 20 CENTS.

EVERY TIME YOU WRITE

Every time you write give your Name in full, your Street or P. O. Box No., your Post Office, the State or Province and Country and enclose a postage stamp or stamped envelope. Do this every time you write. You must also remember that merchandise, medicine, etc., does not go on fast mail trains the same as letters. Do not complain of not receiving your medicine until a reasonable time has passed. Registered mail is at least two days longer than any other, and where mail goes to Foreign Countries, it is liable to lay in the Customs House a week to a month before being delivered. We sometimes misdirect packages, but not one package or letter in ten thousand is lost, as each package bears a request to the Postmasters that if misdirected, or the party cannot be found, we will send stamps to return it to us.

Be SURE to Sign your Name and Address in Full, EVERY TIME YOU WRITE.

SOLAR BIOLOGY

A New Scientific, Exact and Easy Method of Delineating Character; Diagnosing Disease; Determining Mental, Physical and Business Qualifications, Conjugal Adaptability, etc., from Date of Birth.

Illustrated with Diagrams and Tables of the Moon and Planets from 1820 to Date.

A new, scientific and easy method of delineating character according to the position of Earth, Moon and Planets at time of birth. Tells how to determine mental, physical and business qualifications, marriage adaptability, etc., in accordance with the Solar Biology method. This book throws a new light on the problems of life. Tells how to cultivate self and make the most and best of life. Tells one when a child is born what special training it should have, what business it will be adapted to, etc.

This book enables Physicians, Healers, Clairvoyants, and Crystal Gazers to diagnose with greater accuracy. Anyone can easily use this system without any previous study. Differs from Astrology.

This is the original book on SOLAR BIOLOGY, and the only thoro system for reading character from the signs of the Zodiac and the positions of the Planets.

We know of nothing more helpful and interesting. This is the only work of its kind. The book is illustrated with diagrams, author's portrait, and tables of the moon and planets from 1820 to date.

This work tells what is in man and how derived. Tells how to cultivate self and make the most and best of life. Tells one, when a child is born, what kind of training it should have, to what diseases it is liable, how to avoid or how to cure when already developed. Reveals a part of the grand body to which each individual belongs and the consequent mental tendencies, physical fitness, natural sphere and highest and fittest use in the world.

It enables parents to know just what their children are best adapted for, and how to educate them and is also a guide in the preservation of health and strength and an important aid to success and to the attainment of the great object in life; viz., usefulness and happiness. It also aids in prolonging the life of old and young.

Bound in superior cloth embellished with symbolic designs in gold. Printed on extra heavy plate paper from very clear type. 500 pages, 6 1-2 x 9 1-4 inches in size and two inches thick. 15 th. edition. Send for prospectus, table of contents and specimen pages.

PRICE FIVE DOLLARS.

ATLAS PRINTING COMPANY, Binghamton, N. Y.

IF YOU MUST TAKE MEDICINE TRY
ATLAS COMPOUND
 THE GREATEST TONIC ON EARTH.

OUR GUARANTEE

We wish to impress a FACT on the mind of those who are sick and wish to try ATLAS COMPOUND, it is this: Do not expect ONE BOX to help a disease that has perhaps, been years developing. One box will often help acute cases. One box will bring a certain amount of relief, and one box will convince anyone that it is just the medicine they need. All we ask is a trial, but after you have been failing for years and have no doubt tried various other remedies and spent hundreds of dollars for medicines, don't imagine one box will be sufficient.
